Programme Advantages	
<b>Pay only for results.</b> With cost-per-click (CPC) pricing, you pay only when a customer clicks on your ad, regardless of how many times it's shown.	<b>Automatically get the lowest price.</b> Pay the low minimum price for any keyword. Or pay more to get more exposure. Either way, Google's Discounter ensures you pay the lowest amount possible to keep your position.
<b>Less time managing your campaign.</b> Set up your campaign and forget about it. Our Discounter monitors your competition and adjusts your ad costs accordingly. You don't need to check in every day to be sure you're getting the lowest price.	<b>Unlimited free changes.</b> Change your ads as often as you like. It's easy to target multiple ads to one set of keywords or to create several campaigns. There's no cost no matter how many ads you create or modifications you make.
<b>You can't be locked out.</b> Your clickthrough rate and CPC together determine where your ads are shown, so better ads rise to the top. That means no one can lock you out of the top position.	<b>Ads go up immediately.</b> There's no 3 day posting delay. Once your account is created, your ads appear on Google within minutes, connecting new customers with your site immediately.
