

Hurstpierpoint Gymnastics Club

Risk Assessment Policy

Hurstpierpoint Gymnastics Club has a Risk Assessment Policy which is reviewed annually. The policy is to establish what risks there are for those attending the Club.

The policy is to evaluate these risks and establish :-

- what is the nature of the risk,
- who they relate to,
- how severe they are,
- who is responsible for them,
- what measures can be taken to reduce or eliminate the risk,
- what is the residual risk.

The Club recognises that some risks are the responsibility of the coaches, some are the responsibility of the Hurstpierpoint Village Centre charity (The parish council are its sole trustees.), some are the responsibility of the gymnasts parents and carers and some are the responsibility of the children themselves.

Having established what risks there are, the Club will either carry out amelioration them itself, or notify their concerns to the relevant other group within a reasonable time frame.

These risks are monitored through the Club's Health & Safety Policy.

Revised September 2021

Review date September 2022

Appendix

Under 'Body responsible' :-

Children refers to any child who could be reasonably expected to comprehend the risk and any instruction to eliminate or lessen it,

Coaches refers to any coach or assistant working with the Club,

Parents refers to any parent, guardian or carer of a gymnast,

Village Centre refers to Hurstpierpoint Village Centre, acting as a charity with Hurstpierpoint & Sayers Common Parish Council as sole trustee.

The level of risk has been calculated on a matrix which combines the likelihood of an event occurring with the probable severity of any outcome.
