

# BANK AND QUOTATION

## SECTION

OF THE

# COMMERCIAL & FINANCIAL CHRONICLE.

Copyrighted in 1916, according to Act of Congress, by WILLIAM B. DANA COMPANY, in office of Librarian of Congress, Washington D. C.

VOL. 103

NEW YORK, AUGUST 5 1916

NO. 2667

### BANK AND QUOTATION SECTION

The Bank and Quotation Section, issued monthly, is furnished without extra charge to every annual subscriber of the Commercial and Financial Chronicle.

The Railway and Industrial Section, issued three times a year on the last Saturday of February, June and October, is likewise furnished without extra charge to every annual subscriber of the Chronicle.

The Railway Earnings Section, issued monthly, containing the sworn returns of earnings and expenses filed each month with the Inter-State Commerce Commission, is also furnished without extra charge to every annual Chronicle subscriber.

The Electric Railway Section, issued three times a year, in January, May and September, is likewise furnished without extra charge to every Chronicle subscriber.

The State and City Section, issued semi-annually on the last Saturday of May and November, is also furnished without extra charge to every subscriber of the Chronicle.

The Bankers' Convention Section, issued yearly, giving the detailed proceedings of the annual convention of the American Bankers' Association, is also furnished without extra charge to Chronicle subscribers.

Terms for the Chronicle, including the six Supplements above named, are Ten Dollars per annum within the United States, Thirteen Dollars (which includes postage) in Europe, and \$11.50 in Canada.

File covers for the Chronicle are sold at 60 cents each (which includes postage). File covers for Supplements can be had at same price.

### REVIEW OF JULY.

Developments in connection with the war again assumed great prominence, more particularly in the fact that the joint military offensive of the Entente Powers, which had been looked for so long, and evidence of which had become manifest during June, made further progress. All the indications, too, supported the conclusion that Germany and her allies were being steadily pushed back, both on the Eastern and the Western fronts, Russia in particular continuing to overwhelm the Austrians. Simultaneously, the appearance of certain statistical statements directed attention anew to the part the war is playing in stimulating and expanding trade in the United States. The record of the country's foreign commerce for June and the fiscal year ending June 30 was made public and revealed phenomenal results—far surpassing the expectations even of the most sanguine. The statement of the United States Steel Corporation for the June quarter also appeared the latter part of the month (after the close of business on July 25), and this served once again to emphasize the wonderful prosperity which the steel trade is experiencing, also as a direct outgrowth of the European conflict.

The steel trade has for a long time been enjoying the rare combination of an extraordinarily large volume of business and extremely high prices for the same. Very naturally, this happy conjunction of events was reflected in the return of the Steel Corporation. The report showed net earnings (after deducting all expenses incident to operation, and interest on bonds of the subsidiary companies) of no less than \$81,126,048, as against \$60,713,624 in the March quarter and only \$27,950,055 in the June quarter of 1915, and no more than \$12,457,809 in the March quarter of 1915. As a matter of fact, at \$81,126,048 these earnings for the quarter ran above those for the entire calendar year 1914, when the net profits for the twelve months were no more than \$71,663,615. Moreover, as has been the case continuously in every quarter since the beginning of 1915, each month of the quarter surpassed its predecessor in amount of net, so that for June the total of the net was \$28,147,473, against \$27,554,899 in May, \$25,423,676 in April, \$22,722,316 in March, \$19,196,396 in February, \$18,794,912 in January and but \$1,687,150 in January of the previous year (1915). In addition to the quarterly dividend of  $1\frac{1}{4}\%$  the directors of the Corporation also declared an extra dividend of 1% on the common shares. After providing for the higher dividends on the common shares, a surplus of

\$47,964,535 still remained for the quarter. After the meeting President Farrell stated that the corporation was operating to maximum capacity.

In the six months to June 30 1916 net earnings of the Steel Corporation were \$141,839,672, against only \$40,407,864 in the first half of 1915 and \$38,451,977 in the first half of 1914.

But the U. S. Steel Corporation does not stand alone in being able to show such phenomenally favorable results. Other similar enterprises have a like story to tell, and indeed industrial concerns of all kinds, in numberless cases, report huge gains over the corresponding period of the preceding year. The Republic Iron & Steel Co. for the first half of 1916 has profits before interest on bonded debt of \$6,823,026, against only \$1,800,053 in the first six months of 1915. The Lackawanna Steel Co. reports net earnings for the six months of 1916 of \$7,298,627, against \$1,351,888 in the first half of 1915. Of companies in other lines of business the American Hide & Leather Co. resumed dividends by declaring 5% on the preferred shares and furnished figures showing net of \$509,264 for the June quarter of 1916, against \$271,373 in the June quarter of 1915, while Central Leather for the six months to June 30 1916 computes its net at \$6,637,269, against \$3,111,077 in the first half of 1915. The General Chemical Company in the first half of 1916 had net profits of \$5,864,030, against \$2,353,468 in the first six months of 1915. The Corn Products Refining Co. made profits in the half year of 1916 of \$3,130,819, against \$2,061,202 in the first six months of 1915.

A further noteworthy feature, at least as far as the steel trade is concerned, has been that orders have continued to come in, engaging capacity for a long time ahead. Thus, the "Iron Trade Review" of Cleveland reported that final distribution had been made to American mills of the large rail order for the Russian State railways and stated that this marked the consummation of probably the most stupendous single contract of its kind ever given in this or any other country. The gross tonnage placed, it was stated, amounted to from 425,000 to 450,000 tons, of which about 200,000 tons went to the mills of the Steel Corporation, 150,000 to 160,000 to the Cambria Steel Co. (Midvale Steel & Ordnance Co.) and about 75,000 tons to the Lackawanna Steel Co. The Bethlehem Steel Co., it was understood, the Cleveland paper stated, would roll some of the rails under a sub-contract with one of the producers receiving an award. The average price obtained for the rails, which are to be both open-hearth and Bessemer, and the accessories, it was stated, was from \$51 to \$52 alongside New York or from \$49 to \$50 at the mill, representing a total cost to the Russian Government of from \$22,000,000 to \$23,000,000. The rails are to be delivered by July 1917 and it was asserted that this heavy new tonnage, added to the large rail business now on the books of American makers, means that it will be impossible for the United States mills to accept any new rail orders of size for shipment before mid-year of 1917.

The domestic demand for steel was reported light but the foreign orders heavy, and the "Iron Age," in one of its weekly reports, stated that the increasing tonnage of export sales and of foreign inquiry overhanging the steel market was strengthening the position of the steel works in respect to 1916 deliveries. With light home buying each week was increasing the proportion of export steel on the makers' books, and the question of the amount available for home use in the first quarter of 1917 would soon be of live interest. Emphasis was laid on this point because the output of the steel mills, particularly in the Middle West, was being reduced by the extreme heat, while in Alabama, steel works operations were being greatly interfered with by storms, one large plant, according to our contemporary, having had its output cut down about 50% in that way.

The foreign inquiry related to pretty nearly everything, including rails and cars, and not excluding munitions contracts. The "Iron Trade Review," in a dispatch from New York under date of Aug. 1, stated that it was estimated that the new shell and shell forging contracts just placed aggregated in value at least \$100,000,000. Those of the American Locomotive Co., which are among the largest, are understood to reach \$30,000,000 or more. The American Steel Foundries, it is asserted, have a large new order estimated at from \$15,000,000 to \$20,000,000, and the American Car & Foundry Co. one of large proportions. Among the other companies which have received, or are about to receive, new orders, are mentioned E. W. Bliss & Co., the New York Air Brake Co., the American Brake Shoe & Foundry Co., Babcock & Wilcox Co., the Midvale Steel & Ordnance Co., the Forged Steel Wheel Co. and others. The number of shells and shell forgings ordered are figured at 2,000,000 to 3,000,000. One company alone received practically 1,000,000, it is declared, the shells being mainly of large sizes, or 6, 8, 9.2 and some 12-inch, though there have been some additional orders for 3-inch also.

The "Iron Age" of this city, writing about the same date, says that the effect on the situation of war buying on a scale greater than was counted on a few months ago is becoming the foremost issue in the domestic steel market. Steel producers point not only to the large scale of the new buying for the Allies, but to the accumulating world demand for steel apart from war uses, which this country must satisfy if the war goes on another year or more. In the face of the abstention of many consumers from the market, and the active efforts of some for lower prices, as in the case of implement makers, the steel makers, our New York contemporary says, are less inclined to make concessions than in June and early July.

The "Iron Trade Review," touching on the same point, refers to a further advance the current week by the Steel Corporation of \$2 a ton in steel bars, to be followed by further rises in wire products and plates, as evidence that higher, rather than lower, prices are likely. The problem, it states, of the moment and for the next six months to come, according to leading steel makers, is to distribute their output so that consumers may not be handicapped by shortages of material.

Fluctuations in prices were rather irregular during the month. The tendency of metal quotations was downward and so was that for finished products in iron and steel the early part of the month, but of this last instance the course was reversed the latter part. Bessemer steel billets at Pittsburgh, after having declined in June from \$45 a ton to \$42, dropped still further to \$40 in July, but with a recovery to \$43 by the end of the month. Open hearth billets, after having got down to \$40 in June, but with a recovery to \$42, made further recovery in July, getting back to full \$45. Steel bars at Pittsburgh were marked down in July from 2.75c. per lb. to 2.50c. in July, but, as already indicated, the steel makers have now announced an advance to 2.60c. with the beginning of August. Tank plates at Pittsburgh, after being reduced at the end of June from 3.75c. to 3.25c., recovered in July to 3.50c.

Metal prices, as stated above, tended strongly downward, lead at New York being quoted at one time as low as 6.05c., but with the close at 6.10c., against as high as 8c. at the beginning of April. Tin at New York got as low as 37c., but with a recovery to 38¼c., as against as high as 56c. in March. Spelter fluctuated widely as usual, the range for the month at New York being from 9c. to 11¼c., with the close 9¾c., against as high as 21½c. in February. Copper prices also tended downward, Lake copper at New York touching 25¼c. and electrolytic 25c., but with a recovery to 26¼ and 26c.;

in May Lake copper was quoted at 29c. and electrolytic at 28 $\frac{5}{8}$ c. Iron production was not maintained at full maximum, owing to the extreme heat and the humidity of the atmosphere. Then, also, the number of furnaces obliged to blow out for relining increased greatly, reflecting the pressure under which the furnaces had been working all through the year.

Crop developments, however, during July were not favorable, spring wheat having been damaged by black rust and corn by high temperatures in portions of the corn belt. Sharp advances in the grain markets were the natural sequence. September wheat in Chicago advanced from \$1 04 $\frac{5}{8}$  July 1 to \$1 24 $\frac{3}{8}$  July 28, with the close July 31 at \$1 21 $\frac{1}{8}$ . September corn at Chicago rose from 73 cents July 1 to 79 $\frac{1}{2}$  cents July 28, with the close on July 31 78 $\frac{1}{2}$  cents, while September oats at Chicago rose from 38 $\frac{1}{8}$  cts. July 1 to 42 $\frac{1}{8}$  cts. July 17, with the close July 31 at 40 $\frac{7}{8}$  cts. Cotton also manifested a rising tendency at times, owing to adverse developments affecting the growing crop. A report issued on August 1 by the Department of Agriculture at Washington made the average of condition for the whole cotton belt July 25 only 72.3 of a normal, against 81.1 on June 25. The report stated that the thirty days ended July 25 had been only fair for cotton in most of the belt west of the Mississippi River and in Tennessee, and unfavorable east of the river and in Louisiana. A severe tropical storm through portions of Florida, Alabama and Mississippi early in July and an extremely heavy downpour at mid-July in the Carolinas, together with heavy and almost constant rains during July throughout the entire eastern belt, it was stated, had "put the crop badly in the grass, leached out much of the already deficient amount of fertilizer and greatly facilitated the activity of the boll weevil, where present, and it continued to spread." At New York middling upland cotton, after declining from 13.15c. June 30 to 12.90c. July 1 manifested a firm tone the rest of the month, with narrow fluctuations, and July 28 touched 13.30c.; the price July 31 was 13.20c. Print cloths at Fall River throughout the month remained at 4 $\frac{1}{4}$ c. per yard.

The foreign trade record for the fiscal year ended June 30 proved a marvellous one, the exports of merchandise reaching the huge aggregate of \$4,333,698,604, against only \$2,768,589,340 in the fiscal year 1914-15, \$2,364,579,148 in 1913-14 and \$2,465,884,149 in 1912-13; with the excess of exports over imports \$2,135,713,762, against only \$1,094,419,600 in 1914-15 and \$470,653,491 in 1913-14. The net gold importations for the twelve months reached \$403,761,219, against \$25,344,607 in the preceding fiscal year and an excess of gold exports for the fiscal year 1913-14 of \$45,499,870.

One of the events of the month was the placing here of a French loan for \$100,000,000. The loan was obtained through the medium of a company specially organized for the purpose, namely the American Foreign Securities Co. This company has a capital of \$10,000,000 presently to be paid in at par in cash. It has undertaken to lend \$100,000,000 to the Government of the French Republic, and for this it holds the obligation of the French Government to repay the principal in three years, together with interest at a rate more than sufficient to cover the interest on the company's note issue. The company also receives from the French Government securities having a value, calculated at prevailing markets and existing exchange rates, of \$120,000,000. The French Government agrees from time to time to pledge additional securities so that the calculated value of the collateral shall be always 20% in excess of the principal of the loan. The securities are to be pledged with the Bankers Trust Co., in New York City, under a collateral indenture, as security for the notes which the company is putting out, and consisting of obligations (either as maker

or guarantor) of foreign governments and other securities as follows:

Approximate Value at Prevailing Prices and Existing Exchange Rates.	
Government of Argentina	\$20,500,000
Government of Sweden	8,725,000
Government of Norway	3,290,000
Government of Denmark	6,380,000
Government of Switzerland	12,080,000
Government of Holland	1,475,000
Government of Uruguay	3,443,000
Government of Egypt	20,200,000
Government of Brazil (Funding Loan)	1,181,000
Government of Spain	12,600,000
Government of Spain guaranteed Railroad Bonds	8,000,000
Province of Quebec	275,000
Suez Canal Co. Shares	11,600,000
American Corporate Issues	3,700,000
	\$113,449,000

To obtain the bulk of the funds needed to carry out the loan undertaking a public offering was made of \$94,500,000 three-year 5% gold notes of the company, dated Aug. 1 1916 and due Aug. 1 1919. The notes were offered at 98 and interest, yielding about 5.735%. Subscription books were opened at the office of J. P. Morgan & Co., at ten o'clock a. m. July 19 1916, and it was announced they would be closed at ten o'clock a. m. July 24 1916, or earlier, in the discretion of the syndicate managers. Subscriptions were so pressing that the books were actually closed July 21. The offering was made by J. P. Morgan & Co.; Brown Brothers & Co.; Harris, Forbes & Co.; Wm. A. Read & Co.; Kidder, Peabody & Co.; Lee, Higginson & Co.; First National Bank, New York; National City Bank, New York; J. & W. Seligman & Co.; Chase National Bank, New York; National Bank of Commerce, New York; Hanover National Bank, New York; Bankers Trust Co., New York; Guaranty Trust Co., New York; Farmers' Loan & Trust Co., New York; Union Trust Co., New York; Mellon National Bank, Pittsburgh; Commercial Trust Co., Philadelphia; Central Trust Co. of Illinois, Chicago; First National Bank, St. Paul.

In the stock market a general and, in some instances, a pronounced decline in prices occurred with the industrial securities the heaviest sufferers, but with the market extremely dull at the close. The war stocks appeared to be under selling pressure throughout the month. Very flattering statements of earnings were made by some of the industrial concerns, but their influence was nil, and sharp declines were experienced in many of the leading speculative specialties. It seemed to be felt that though profits might be phenomenal for the time being, due to the execution of war contracts, sooner or later this business must come to an end and with normal conditions restored earnings would also again be merely normal. Early in the month the upward spurt in money induced an extensive calling of loans and the industrial shares naturally felt this curtailment of banking accommodations most. The proposed Government tax on war munitions and explosives and on copper likewise exerted an unfavorable influence. Then, also, all the motor stocks appeared to be under a cloud, especially Studebaker, Willys-Overland and Maxwell Motor. After the middle of the month some recovery in these stocks occurred, but there was weakness again towards the close. The fluctuations in U. S. Industrial Alcohol shares were unusually wild and erratic. The exceedingly favorable statement made by the U. S. Steel Corporation after the close of business on July 25 might have been expected to have a stimulating effect and the market did open somewhat higher the next day, but the improvement was quickly lost again. In the railroad list continued selling for foreign account appeared to be the weakening element; there seems no other plausible explanation of the drooping course of values for these stocks in face of the uncommonly encouraging statements of earnings that the railroads are making. A few of the industrial stocks register slight gains for the month and the same is true of the railroad list, but the generality of both classes record losses. U. S. Steel common opening July 1 at 85 $\frac{5}{8}$  touched 87 $\frac{1}{4}$  July 6, dropped to 83 $\frac{1}{8}$  July 14 and closed July 31 at 86 $\frac{3}{8}$ . Maxwell Motor common closed July 31

at 81¼, against 81¾ July 1, but in the meantime the stock was down to 69 July 13 and up to 82½ July 24.

In the local money market there was an upward spurt in rates at the beginning of the month, but it proved to be of only temporary duration and was due entirely to the fact that in the process of the huge income tax collections by the Federal Government at the close of June large sums of money were temporarily locked up in treasury vaults and in the Federal Reserve banks. As a result of these movements, money holdings of the New York Clearing House banks and trust companies in the two weeks from June 24 to July 8 were reduced from \$449,914,000 to \$385,855,000, while surplus reserve fell from \$109,502,410 to \$53,546,060. But the dislocation was quickly corrected and by July 29 surplus reserves were up again to \$109,246,310 and money holdings up to \$428,941,000. While the spurt was under way call money on July 7 touched 4½% and July 10, 6%, but July 31 was down again to 2@2½%. Rates for fixed maturities at one time were 4½% per annum for periods running from 60 days to 4 months and 4½@4¾ for 5 and 6 months. On the closing day of the month (July 31) quotations were down to 3@3¼ for 60 days, 3¼@3½ for 90 days, 3¾ for 4 months and 3¾@4 for 5 and 6 months. Commercial paper at the close was quoted at 3¾@4% for 60 and 90 days endorsed bills receivable and six months single names of choice character; for others the quotation was 4½%.

In the foreign exchange market the feature was the rather unexpected advance from 5% to 6% in the minimum rate of discount by the Bank of England on July 13. This action was in response to the rise in money rates here at the beginning of the month and was taken with a view to equalizing conditions as far as money rates are an influence on foreign exchange rates in such a peculiar situation of the foreign exchanges as exists at the present time. But the advance in local money rates was the result of entirely ephemeral causes and the upward tendency had been partly arrested when the Bank of England governors put up their rate. The rumor the next week that the rate might be further advanced to 7% proved unfounded and probably never had any substantial basis. Some large arrivals of securities on account of the British Government were announced during the month. The fluctuations in sterling were again encompassed within a narrow range. As a matter of fact, as is well known, the sterling exchange market, under present conditions, is a more or less arbitrary affair and entirely under the control of the British Government, quotations for demand bills never being allowed to deviate greatly from 4 7/8. The placing here of a French loan for \$100,000,000 through the American Foreign Securities Co. had a beneficial influence, not only on French exchange, but indirectly also on sterling.

There was a resumption at one time of gold importations from Ottawa, \$12,000,000 being received in the week ending the 15th at New York, and later there was an arrival of \$4,000,000 at Philadelphia from Ottawa. On July 17th there was also a receipt at New York of \$20,000,000 of British Treasury gold from Halifax, where it arrived, according to unofficial reports, by warship. The latter part of the month the return of ease in money at this centre made the task of maintaining sterling exchange a much less difficult one, notwithstanding the growing proportions of the adverse trade balance against Great Britain. In the Continental exchanges the feature was renewed weakness in reichmarks, bankers' sight bills on Berlin getting down to 71½, with a trifling recovery (to 71 13-16) at the close. Early in the month the rate got as high as 74½@74¾, due to the arrival of the German merchant submarine Deutschland. Austrian kronen followed much the same course as German reichmarks, being weak at the close, after an early advance.

RATES OF EXCHANGE ON CONTINENTAL CENTRES.

CONDITION OF THE TRUST COMPANIES OF NEW YORK STATE.

We present below comparative statements showing the condition of the trust companies of New York State at the date of the last call and of various previous calls since August 1907. We give separately the totals for the Greater New York and those for the whole State. We also add tables to indicate the changes in deposits for all the separate companies in the different boroughs of this city

AGGREGATE DEPOSITS OF THE SEPARATE TRUST COMPANIES.

# GENERAL QUOTATIONS

OF  
BONDS AND STOCKS.

1. In the following thirty pages of tables, quotations are given for all the more important securities listed on any Stock Exchange in the United States; also for leading unlisted and inactive securities.
2. Quotations from all Stock Exchanges are as near as possible for the closing day of the month preceding the date of issue. As the New York Stock Exchange began with Jan. 2 1909 to quote all bond prices "and interest," we have adopted the same method, and no longer employ a designating mark to indicate the fact except where there is a deviation from this rule. The reader will understand, therefore, that unless the letter "f" is prefixed to the price, he must pay accrued interest in addition to the price. This, however, does not apply to income bonds or bonds in default, in which cases the price includes the interest, should there be any.
3. The letter "f" prefixed to bond prices denotes that the quotation is a flat price—that is, that the accrued interest forms part of the price, and therefore the purchaser does not have to provide for it separately in making payment. As already stated in the case of income bonds and bonds in default, the price is always "flat," and no designating mark is employed to indicate the fact.
4. Stock prices marked thus (d) are per share. All others are per cent except bank stock prices, which are quoted per share unless otherwise stated.
5. It should be borne in mind in the use of these tables that the quotations for many inactive and unlisted securities are merely nominal, but in all cases the figures are obtained from sources which are considered reliable.
6. The following abbreviations are often used, viz.: "M" for mortgage, "g" for gold, "g'd" for guaranteed, "end" for endorsed, "cons" for consolidated, "conv" for convertible, "s f" for sinking fund, "l g" for land grant, "op" for optional.
7. The black-faced type in the letters showing the interest period indicates the month when the bonds mature.

NOTICE—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

# PUBLIC UTILITIES

In the following rearrangement of our quotation lists we bring together under the general designation of "Public Utilities," all the different forms of such securities, thinking it easier for the reader to find any particular issue in a general list than when the securities are subdivided under separate heads and there is doubt as to what head to look under. In other words, under "Public Utilities," we include Street and Electric Railways, Gas, Electric, Power, Water and Telegraph and Telephone Companies.

In quoting Public Utility bonds, we employ the same method as in quoting the bonds of steam railroads. The great majority of issues being quoted "and interest," we use no designating mark whatever where that is the case. On the other hand, we prefix the letter "f" where there is a deviation from this rule; in such cases the interest forms part of the price. Unless, therefore, "f" appears against a quotation, the buyer will understand that the accrued interest is to be added on. This, however, does not apply to income bonds and bonds in default, in which cases the price takes account of the interest (should any payment be announced) and no designating mark is employed.

NOTICE.—All bond prices are "and interest" except where marked "f" and income and defaulted bonds.

Bonds.	Bid.	Ask.	Bonds.	Bid.	Ask.	Bonds.	Bid.	Ask.

# BANKS AND TRUST COMPANIES.

Quotations in this department are given per share, not per cent, except for stocks of New York City, Brooklyn and Canadian institutions, and are as near as possible for the closing day of the month preceding the date of issue, though often are nominal. An asterisk (\*) denotes sales. The letter (h) prefixed to a price indicates that the figures show the book value. Figures of deposits, capital and profits for the national banks are from the Comptroller's last call; for all other institutions they are the latest obtainable, direct returns being procured by us where no periodic statements are required. For the Clearing-House banks of New York, Philadelphia and Boston, deposits are taken from the latest weekly statement.

Where Names are Printed in Italics Fuller Returns may be Found in the Advertising Columns
