

PONTBLYDDYN CRICKET CLUB

CHANGING POLICY

As an ECB affiliated cricket club Pontblyddyn CC has a Changing Policy, guidelines for which are provided here.

These guidelines apply to the arrangements to be made for adults, and children, using changing facilities. Adults and children must not use the same changing facilities at the same time.

In order to achieve this the following guidelines should be followed:

- Adults must not change, or shower, at the same time using the same facility as children - if the same changing room is used then they must have different times.
- If adults and children need to share a changing facility, they must do so at different times and club policy is that the children should be allowed to use the showering and changing facilities whilst the adults wait outside and away from the changing rooms.
- Mixed gender teams must have access to separate male and female changing rooms
- Due to the risks of inappropriate photography or filming, mobile phones must not be used in changing rooms.
- If both male and female players require access to changing and showering facilities, then female players may use the umpires changing facilities if they are not being used by umpires. If umpires do require the use of the changing and showering facilities the female players may use them when the umpires have finished.

If children are uncomfortable changing or showering at the club, no pressure should be placed on them to do so. Suggest instead that they may change and shower at home.
