

Blackpool netball club

Blackpool Netball Club has been continuing to develop Players from primary age to senior age, for over 20 years. We are now looking to develop our club to school links. To facilitate this we can provide a coach to deliver breakfast, lunch or after school clubs in your setting.

As well as supporting your pupils, we are looking to develop the netball knowledge of the staff who are working with your children. This may include:

- Training drills to enhance netball practices.
 - Match tactics for school matches.
 - Rules of the game.
- Umpire development so staff can take the lead at matches.

Sessions can be run on a half termly basis and will be lead by the same coach each week to develop familiarity with the pupils participating. This will allow progress to be consistently monitored and discussed with your staff.

Coach biography
