

LEIGHTON BUZZARD HOCKEY CLUB

Vandyke Entrance Procedure from April 2021

With new building works now complete at Vandyke, and with increased traffic in 'our' old car park, the school has decided to alter how we as a club enter and exit the pitch and club house. This is for all sessions including Training, Matches, Juniors, and Flyerz.

This starts with using a different car park. When arriving by car you still drive up Vandyke road to the Entrance point. Once you have turned into the entrance you now follow the road round to the right

Drive down the road and past the main reception. Near the end of this road there is left turn into the new car park. If this car park is full you can use the spaces along the road you have just driven down. Please remember that for safety and traffic flow reasons, Vandyke is a 1 way system for cars – so do not try and enter from the bottom of Vandyke road.

Once parked you will walk through the new gates. To help with social distancing you will enter through the single gate on the right and leave through the double gates on the left.

Once through the gates please stay to the right of the planted dividers. At the end there is a path with you can walk down which takes you to the pitch. Our new entrance to the pitch is the double gates by the coaching sheds, on the same side as the club house.

When leaving the pitch you now exit by the gates in the corner (where we used to enter). Walk up the path and under the canopy area and onto the path, staying to the right side of the dividers. Then exit through the double gates (that are now on your right).
