

Luton Rugby

RELOCATE NO 7 - WINTER 2019

SUNDON PLANNING APPLICATION SUBMITTED

Luton Rugby Football Club has submitted a planning application for new facilities at Sundon Road following two years of consultation and engagement culminating in a public consultation event in late September. Over 67% of those who attended the consultation event supported the proposals with a further 10% showing no preference.

The application reflects issues raised at the consultation and how they have been addressed where possible. One of the key comments was the site's relationship with the nearby cemetery and church so increased landscaping has been included along the south eastern boundary.

A further improvement is the extension of the footpath from Lower Sundon on the northern side of Sundon Road to the entrance to the site otherwise the plans are very similar to those that have been presented since the start of 2019.

The application will now be scrutinised by Central Bedfordshire Council and a decision is hoped for by Easter 2020.

Finally, Season's Greetings to you all.
