

Physical Education and extra-curricular sport - Shenley Academy

At Shenley we are fully committed to providing opportunities for students of all abilities. We do this through a variety of different types of activities ranging from sports fixtures for selected students to sports clubs and inter-college competitions for all who wish to be involved.

We are one of eleven School Games Organiser hub schools in Birmingham. We are the lead for primary and secondary schools in our local area partnership. This includes providing opportunities for competition and leadership, as well as supporting primary schools with provision for active healthy lifestyles.

We work hard at delivering a sustainable programme of sport and have been recognised over a period of time for our excellent provision with a variety of awards. These include:

Youth Sport Trust – Gold partner status
Youth Sport Trust award for outstanding intra-school sport
School Games mark– Silver award
DfE sports case study of high achieving schools in sport

Rounders	Birmingham School Games - qualifiers and city finals
Softball	Birmingham School Games - qualifiers and city finals
Athletics	South Birmingham trials West Midlands Championships for qualified athletes South Birmingham team championships Birmingham School Games - qualifiers and city finals

Sports Leadership

We have developed the role of leadership of students by encouraging their use as college sports captains. Captains encourage participation by assisting in the organisation of teams. Furthermore, through the development of sports leadership, students assist in the officiating and scoring of matches within the competitions. Sports Leadership skills are developed by students working in a programme to deliver sports sessions to feeder primary schools. This includes a multi-skills festival that our students deliver to year 3 & 4 students, and a Play leaders event that our students deliver to year 4 & 5 primary school students.

Whilst developing specific sports skills students also develop skills that are transferable to life in school and for their lives in general. Students develop collaborative skills, leadership qualities; learn how to respond to leadership and how to be sensitive to the needs of others.

There is also a Sports Leadership Academy that meets termly in order to discuss the leadership programme and plan for the organisation of School Games Level 1 and Level 2 competitions. These students amongst others also have the opportunity to complete leadership courses in a range of sports including basketball, rowing and tennis.

Primary school tennis leadership

Primary school tri golf leadership

Primary school athletics leadership

Primary school handball leadership

Primary school netball leadership

Secondary school basketball

Secondary school indoor athletics

Secondary school badminton

Secondary school indoor rowing and kayaking

College sport competitions

As a faculty we organise and run an extensive programme of intra-school sport competition for which we have previously won a Youth Sport Trust award. The aim of it is to give every student the opportunity of playing competitive sport. College competitions form the key part of our programme and throughout the year students participate in 8 dedicated inter-house competitions with separate tournaments to cater for students' age group and gender. Each tournament is open to all students regardless of ability and so if students wish to play competitive sport they are able to do so on a regular basis. Across the whole school the intra-college competitions build a team ethos in each of the five colleges.
