

# YOUR COMPLETE GUIDE TO UK AND OVERSEAS FLYING CLUBS AND SCHOOLS

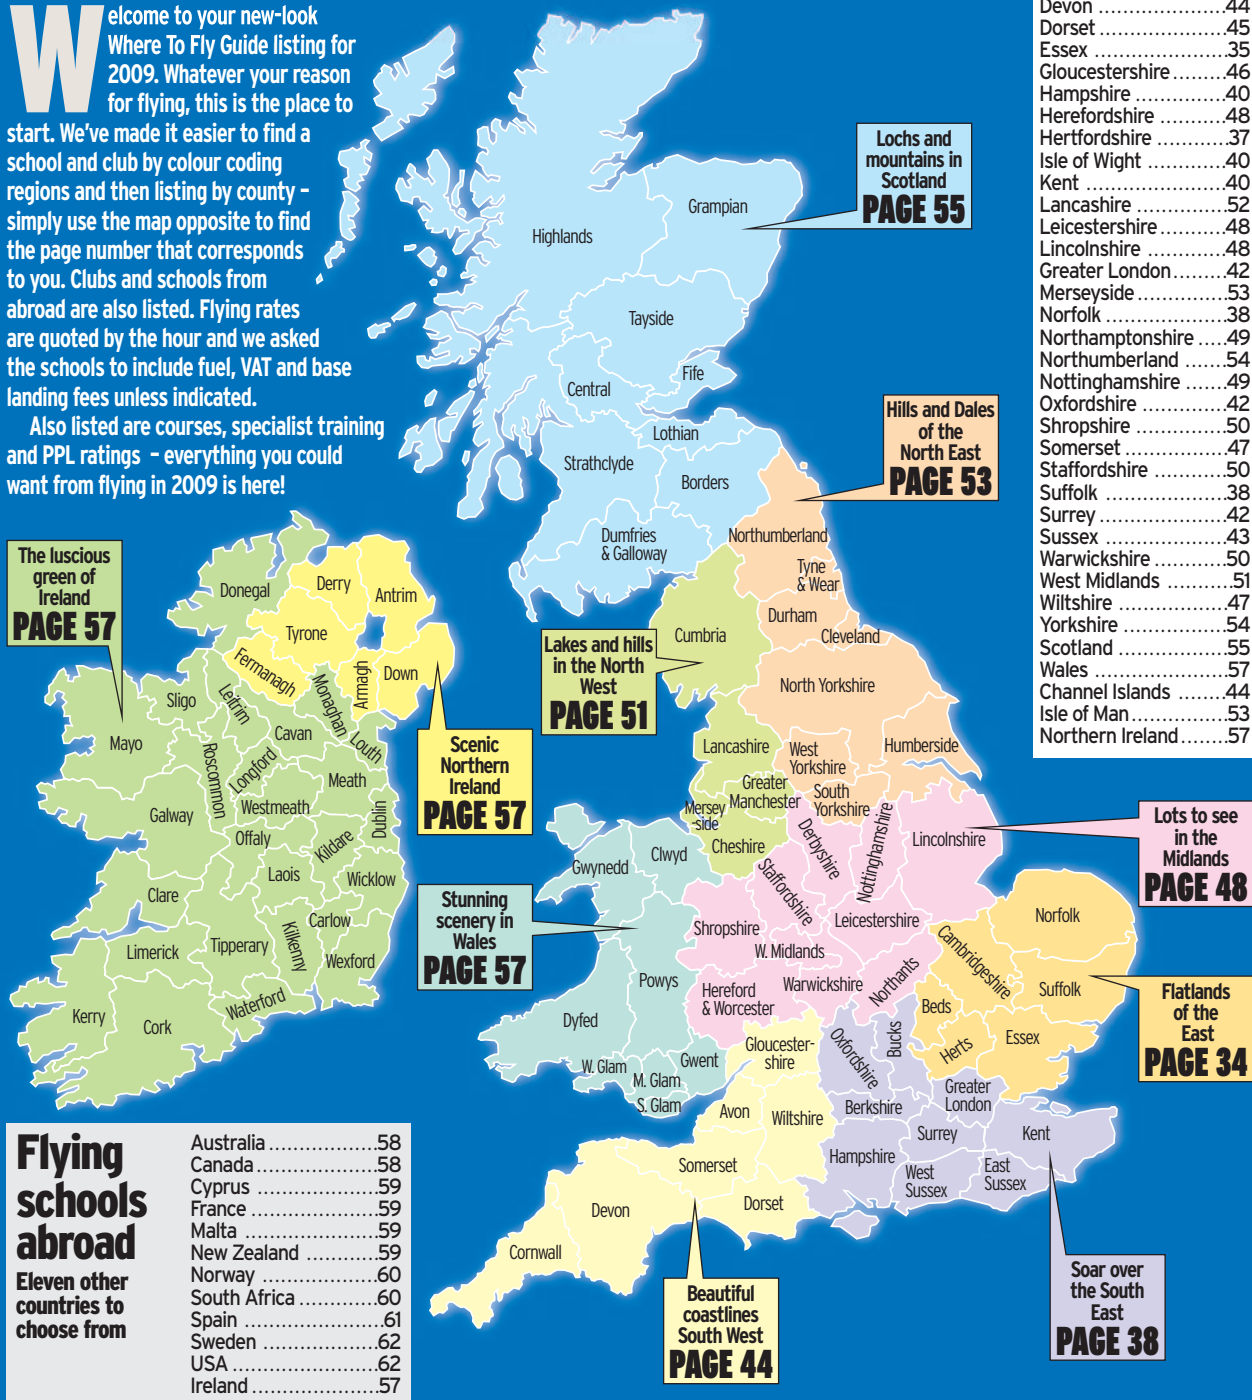

**W**elcome to your new-look Where To Fly Guide listing for 2009. Whatever your reason for flying, this is the place to start. We've made it easier to find a school and club by colour coding regions and then listing by county - simply use the map opposite to find the page number that corresponds to you. Clubs and schools from abroad are also listed. Flying rates are quoted by the hour and we asked the schools to include fuel, VAT and base landing fees unless indicated.

Also listed are courses, specialist training and PPL ratings - everything you could want from flying in 2009 is here!

## UK clubs and schools

Here I am (AGAIN)  
**PPL Ground Exams**

Are you trying to pass by watching television (er, sorry, CD ROM's)?

I could teach you more in one day by talking to you, than you could learn by watching CD ROM's, until your eyes fall out. Five day, full time Ground School at my home, and I promise you will enjoy it. Come down and do any or all the exams you need. Go back to your wife and school and get on with your life, you know what I mean!

Three decades a teacher/examiner

## Aircraft Grouping

*'Home of Low Cost Flying'*

If you are looking to fly or you are a recreational pilot and you find that the cost of flying is keeping you on the ground, we've got the perfect solution for you. Join our groups now and reach for the skies without costing the earth!

For people who don't want to pay out an initial sum of money to buy an aircraft, but want all the advantages which come with group flying why not try one of our no equity groups. It's a simple way to operate at cost price per hour with a monthly payment.

We specialise in offering packages of membership all which own their own aircraft and operate it at cost price with no hidden costs. The cost of flying is done automatically when a group of several people are involved in the aircraft and budget sensibly.

For the ultimate aircraft group why not register your interest in our Omega Classics group. Go to [www.aeroflying.com](http://www.aeroflying.com) for more information.
