#### CODES

I - Y indicates that the taxon is introduced to Queensland and has naturalised.

Q - Indicates the Queensland conservation status of each taxon under the *Nature Conservation Act 1992*. The codes are Extinct in the Wild (PE), Endangered (E), Vulnerable (V), Near Threatened (NT), Least Concern (C) or Not Protected ( ).

A - Indicates the Australian conservation status of each taxon under the *Environment Protection and Biodiversity Conservation Act 1999*. The values of EPBC are Conservation Dependent (CD), Critically Endangered (CE), Endangered (E), Extinct (EX), Extinct in the Wild (XW) and Vulnerable (V).

Records – The first number indicates the total number of records of the taxon for the record option selected (i.e. All, Confirmed or Specimens).

This number is output as 99999 if it equals or exceeds this value. The second number located after the / indicates the number of specimen records for the taxon.

This number is output as 999 if it equals or exceeds this value.

# Appendix C

## Site Card

**Site ID: MSR\_IA\_01**

Location	-19.3931020341, 146.733518851
Site ID	MSR_IA_01

## Latitude/Longitude Search

I refer to your submission in which you requested advice regarding Aboriginal or Torres Strait Islander cultural heritage recorded at your nominated location.

The Cultural Heritage Database and Register have been searched in accordance with the location description provided, and the results are set out in the above report.

Aboriginal or Torres Strait Islander cultural heritage which may exist within the search area is protected under the terms of the *Aboriginal Cultural Heritage Act 2003* and the *Torres Strait Islander Cultural Heritage Act 2003*, even if the Department of Aboriginal and Torres Strait Islander Partnerships has no records relating to it.

Under the legislation a person carrying out an activity must take all reasonable and practicable measures to ensure the activity does not harm Aboriginal or Torres Strait Islander cultural heritage. This applies whether or not such places are recorded in an official register and whether or not they are located on private land.

Please refer to our website <https://www.datsip.qld.gov.au/people-communities/aboriginal-torres-strait-islander-cultural-heritage> for a copy of the gazetted Cultural Heritage Duty of Care Guidelines, which set out reasonable and practicable measure for meeting the cultural heritage duty of care.

In order to meet your duty of care, any land-use activity within the vicinity of recorded cultural heritage should not proceed without the agreement of the Aboriginal or Torres Strait Islander Party for the area, or by developing a Cultural Heritage Management Plan under Part 7 of the legislation.

If your proposed activity is deemed a Category 5 activity pursuant to the Duty of Care Guidelines, there is generally a high risk that it may harm cultural heritage. In these circumstances, the activity should not proceed without cultural heritage assessment.

Where a category 5 activity is proposed, it is necessary to notify the Aboriginal or Torres Strait Islander Party and seek:

- a. Advice as to whether the area is culturally significant;
- b. If it is, agreement on how best the activity may be managed to avoid or minimise harm to any cultural heritage values.

The extent to which the person has complied with Cultural Heritage Duty of Care Guidelines and the extent the person consulted Aboriginal or Torres Strait Islander Parties about carrying out the activity – and the results of the consultation – are factors a court may consider when determining if a land user has complied with the cultural heritage duty of care.

## Latitude/Longitude Search

Should you have any further queries, please do not hesitate to contact the Search Approval Officer on 1300 378 401.

Kind regards

The Director  
Cultural Heritage | Community Participation | Department of Aboriginal and Torres Strait Islander Partnerships

**Phone:** 0466988699  
**Fax:** Not Supplied

## Dig Site and Enquiry Details

**WARNING:** The map below only displays the location of the proposed dig site and does not display any asset owners' pipe or cables. The area highlighted has been used only to identify the participating asset owners, who will send information to you directly.

**User Reference:** RRD-DWTP  
**Working on Behalf of:** Townsville City Council  
**Enquiry Date:** 27/04/2021  
**Start Date:** 31/05/2021  
**End Date:** 03/07/2021

**Address:**  
Angus Smith Drive  
Mount Stuart QLD 4811

**Job Purpose:**  
Excavation

**Location of Workplace:**  
Private Property

**Onsite Activity:**  
Manual Excavation  
**Location in Road:**  
Not Supplied

- Check the location of the dig site is correct. If not submit a new enquiry.
- If the scope of works change, or plan validity dates expire, resubmit your enquiry.
- Do NOT dig without plans. Safe excavation is your responsibility. If you do not understand the plans or how to proceed safely, please contact the relevant asset owners.

**Notes/Description of Works:**  
Installation of Pipeline

## Your Responsibilities and Duty of Care

- The lodgement of an enquiry does not authorise the project to commence. You must obtain all necessary information from any and all likely impacted asset owners prior to excavation.
- If plans are not received within 2 working days, contact the asset owners directly & quote their Sequence No.
- ALWAYS perform an onsite inspection for the presence of assets. Should you require an onsite location, contact the asset owners directly. Please remember, plans do not detail the exact location of assets.
- Pothole to establish the exact location of all underground assets using a hand shovel, before using heavy machinery.
- Ensure you adhere to any State legislative requirements regarding Duty of Care and safe digging requirements.
- If you damage an underground asset you MUST advise the asset owner immediately.
- By using this service, you agree to Privacy Policy and the terms and disclaimers set out at [www.1100.com.au](http://www.1100.com.au)
- For more information on safe excavation practices, visit [www.1100.com.au](http://www.1100.com.au)

## Asset Owner Details

The assets owners listed below have been requested to contact you with information about their asset locations within 2 working days. Additional time should be allowed for information issued by post. It is **your responsibility** to identify the presence of any underground assets in and around your proposed dig site. Please be aware, that not all asset owners are registered with the Dial Before You Dig service, so it is **your responsibility** to identify and contact any asset owners not listed here directly.

\*\* Asset owners highlighted by asterisks \*\* require that you visit their offices to collect plans.

# Asset owners highlighted with a hash require that you call them to discuss your enquiry or to obtain plans.

## Unexpected Finds Procedure

## Appendix F Unexpected Finds Procedure

### Indigenous Cultural Heritage

Indigenous finds can include the following:

- Stone artefacts - sharp edged rocks that have identifiable features demonstrating evidence of human modification
- Scarred Trees - trees with symmetrical scars that might demonstrate evidence of removal of bark for use in coolamons, shields and huts
- Grindstones - large sandstone items (either fixed in bedrock or mobile) that have manmade grooves in them demonstrating use.
- Stone Axes - heavy hatchet head like stone items, typically with the leading edge sharpened
- Bone & Shell - potential historical food waste dumps (also known as Middens).

### Historical Cultural Heritage

Historical finds include the following:

- Glass - coloured glass, bottles (complete or fragmentary etc.)
- Metal - identifiable metallic objects such as cutlery, buckles, framing equipment, woodworking and metal equipment etc.
- Ceramic - plates, cups, ink wells, pipes etc.
- Wood - identifiable human manufactured wooden items
- Stone - identifiable human manufactured stone items
- Bone & Shell - potential historical food waste dumps

### Unexpected Finds Procedure

The following procedure is to be followed:

1. If a suspected chance find is identified during the proposed works within the Study Area, work will stop immediately in the immediate area and the Site Project Manager will be notified of the find.
2. A 10 m area radius is to be cordoned off by temporary fencing around the suspected archaeological site.
3. The Site Project Manager must then engage a Cultural Heritage Specialist to assess the find.
4. If the find is determined to be Indigenous heritage, the Cultural Heritage Specialist under the Site Project Manager's direction will contact the relevant Indigenous Party to discuss the find and appropriate mitigation measures.
5. If the find is determined to be historic heritage, the Cultural Heritage Specialist under the direction of the Site Project Manager's will assess the find's significance and advice on an appropriate mitigation management strategy, the Cultural Heritage Specialist will then update and/or complete site records and advise on possible management strategies as required by law.

### Discovery of Human Remains

The following procedure is based on the DATSIP Guidelines for the discovery, handling and management of human remains.

In all cases when human remains are located it is important to remember:

- The discovery of any human remains must as soon as possible be reported to the police.
- It is an offence to interfere with human remains, whether buried or not.

The following process should be adhered to:

1. Work is to immediately cease, and a 50m temporary cordon be established.
2. The Site Project Manager's and the appointed Cultural Heritage Specialist must be immediately notified of the find
3. If human remains are suspected, the Site Project Manager will contact the Police to advise them of the presence of human remains and follow all instructions from the Police/Coroner.
4. Police will then take control of the site and establish the area as a potential crime scene.
5. Police will undertake appropriate scientific or other procedures to assist the Coroner in making an appropriate determination about the remains.
6. If the remains are thought to be neither Indigenous /Torres Strait Islander, related to criminal activity or are of doubtful determination, the Police may remove the remains for further analysis.
7. If the remains are determined to be ancestral remains without the need for removal, the relevant Traditional Custodians for the area will be responsible for their management In cases where remains are removed by Police and subsequently determined by the Coroner to be of Aboriginal or Torres Strait Islander origin, the remains will be released to the Minister responsible for administering the Acts. The Department of Aboriginal and Torres Strait Islander Partnerships is then responsible for coordinating the return of the remains to the relevant Traditional Owners.
8. If the remains are determined to be historical burials, the Heritage Unit, Department of Environment and Science is to be contacted to discuss management and permitting requirements
