

**NOMENCLATURAL NOTE: *JUNIPERUS COAHUILENSIS* (MARTINEZ)
GAUSSEN EX R.P. ADAMS**

Robert P. Adams

Plant Biotechnology Center, Baylor University, BU Box 97372, Waco, Texas
76798 U.S.A.

ABSTRACT

***Juniperus coahuilensis* is validated for use in future publications.**

KEY WORDS: *Juniperus*, Cupressaceae, nomenclature

Gausсен (1968) elevated *Juniperus erythrocarpa* Cory var. *coahuilensis* Martinez to specific rank: *J. coahuilensis* (Martinez) Gausсен. Unfortunately, Gausсен (1968) failed to properly cite the basionym as required by the current *International Code of Botanical Nomenclature*, thus rendering the publication invalid. To validate the name, the following is proposed.

***Juniperus coahuilensis* (M. Martinez) Gausсен ex R.P. Adams, comb. nov.**

BASIONYM: *Juniperus erythrocarpa* Cory var. *coahuilensis* M. Martinez, Anal. Inst. Biol. Mexico 17:115-116. 1946. **TYPE:** MEXICO. Coahuila: Sierra de los Hechiceros, Johnston & Muller 1290 (**HOLOTYPE:** MEXU; **Isotypes:** GH,NA,TENN,TEX).

Distribution: Chihuahuan desert from n. México into w. Texas, s. New Mexico, and s. Arizona.
