

New York Natural Heritage Program

Rare Plant Status List

May 2004

Edited by:
Stephen M. Young and Troy W. Weldy

This list is also published at the website:
www.nynhp.org

For more information, suggestions or comments about this list, please contact:

Stephen M. Young, Program Botanist
New York Natural Heritage Program
625 Broadway, 5th Floor
Albany, NY 12233-4757
518-402-8951 Fax 518-402-8925
E-mail: smyoung@gw.dec.state.ny.us

To report sightings of rare species, contact our office or fill out and mail us the Natural Heritage reporting form provided at the end of this publication.

The New York Natural Heritage Program is a partnership with the New York State Department of Environmental Conservation and by The Nature Conservancy. Major support comes from the NYS Biodiversity Research Institute, the Environmental Protection Fund, and Return a Gift to Wildlife.

New York Natural Heritage Program Rare Plant Status List

WHY IS THE LIST PUBLISHED?

The New York Natural Heritage Program publishes the rare plant status list:

1. to assist the conservation and protection efforts of government agencies, private organizations, and the general public,
2. to provide information for use in the environmental review process,
3. to provide information to educators and researchers about New York's rare plants, and
4. to assist those in search of rare plants.

WHAT DOES THE LIST CONTAIN?

The list contains the name, Heritage rank, counties of occurrence, and legal status for all plants that the NY Natural Heritage Program tracks. The **active inventory list** contains most plant taxa (species, subspecies and varieties) that have fewer than 30 occurrences in the state and are considered highly vulnerable to extirpation. They have been documented by a Heritage report and/or a herbarium specimen in the last 20 years (575 taxa). It also contains rare historical taxa, those plants that have not been documented in the last 20 years (63 taxa), and the extirpated taxa, those that are considered no longer extant in the state (63 taxa). The **watch list** contains taxa that are considered rare, uncommon, or declining in numbers and need continued periodic monitoring to decide if they should be actively inventoried or removed from the list (69 taxa). We have also included a **review list** that contains species that may be rare within New York, but more work is needed to determine their distribution within the state, resolve taxonomic/identification problems, etc. before their state rarity can be determined.

This list is not synonymous with the New York State DEC Protected Native Plants list (August 2000). The Heritage list contains all plants that are rare, while the DEC list contains native plants that are protected by state law. Almost all rare plants that are on the Heritage Active List are listed by the state. The DEC Protected Plant List is included in New York's rare plant law that is open to public comment and approval by the state legislature. The Protected Plant List also includes the category of Exploitably Vulnerable (plants that may be exploited, but not necessarily rare [e.g., all orchids, most ferns]). **For your convenience the DEC Protected Plant List is included at the end of this publication.**

HOW IS THE INFORMATION COMPILED?

This list has been compiled over many years from a variety of sources. By consolidating these sources, NY Natural Heritage is able to enhance their usefulness and identify gaps in knowledge.

Information is gathered principally from fieldwork as well as from published and unpublished reports, herbarium specimens, and oral reports. When occurrences of rare plants are discovered in the field, quantity of individuals, quality, and location of the population are documented, and, if warranted, specimens and/or photographs are taken. These occurrences are then monitored, and changes in biology and land conservation status are recorded. Information gathered from all sources is mapped on a GIS (Geographical Information System or computerized mapping) and entered into a computer database that serves as a "communal memory" of rare plant, animal and natural community information from across the state. Electronic data are backed up with paper files; both are carefully protected from unauthorized access. Information that we gather and receive during the growing season is "transcribed" and entered into the database during the winter, thus information received in April of one year may not be available in the database until February or March of the following year.

HOW DOES THE LIST CHANGE?

Each winter, after entry of new information into the database is completed, the list is reevaluated by NY Natural Heritage staff, the State Botanist, and other botanists familiar with the state flora to decide if certain plant species should remain or be removed from the list, or if their rarity ranking should change. Recommendations for new plants to be added to the list are also evaluated.

WHY ARE PLANTS RARE?

Plants are rare for different reasons. Some species have narrow habitat requirements that are met in only a few areas of the state or world. Other factors that contribute to the rarity of species are low reproduction rates and disturbance or loss of habitat from human-induced activities such as: pollution, development, introduction of exotic plants and pests, and over-collection of useful or attractive plants. Natural biological, climatic, and geological events can reduce or isolate widespread species resulting in global or local rarity or even extinction. However, at present, natural processes play a relatively small role in species extinction when compared to human activity. Often these factors work in combination to limit species distribution. Plants that are considered rare only in New York State are usually, but not always, on the edge of their range. They are more common elsewhere but exist at only a few localities in New York.

WHY PROTECT RARE PLANTS?

When rare plants are protected, distinctive populations of species are preserved along with their genetic variation within their natural habitat. This "biodiversity" of organisms is an important component of healthy, functioning ecosystems upon which all life on earth is dependent. Since there is usually a lack of complete information about the complex interactions within specific ecosystems to decide which plants are "expendable", all species should be protected. Some believe that plants are not only essential to survival of the human race, but they also have an equal right to exist because they have survived and adapted for as long as or longer than humans. Plants are also indicators of the quality of the environment. Some plants decline in numbers, or disappear altogether, under the influence of increased air or water pollution. Rare plants are also valued and protected because they are unusual - something out of the ordinary that people enjoy taking a special effort to see and photograph.

State-rare plants, usually on the edge of their range, are subject to environmental conditions different from the center of their range. Therefore, they sometimes have genetic differences that allow them to cope with these conditions. Their populations are important reserves of genetic diversity of the species as a whole and should be protected. They may also be important components of ecosystems uncommon in the state or indicate important processes taking place in otherwise common natural communities. A rich natural heritage is one of New York's most valuable resources - one that is treasured by residents and visitors alike.

"In the end we will be defined not by what we create but by what we refuse to destroy."
John Sawhill, The Nature Conservancy

EXPLANATION OF CATEGORIES

This list is produced from the Heritage Program's Biotics 4 Database and includes the following categories:

SCIENTIFIC NAME – This is the genus and species name derived from Latin or Greek roots. Some plants also have a variety or subspecies name. These standardized scientific names are understood throughout the world. This list follows the taxonomy of the USDA PLANTS database (USDA, NRCS. 2004. The PLANTS Database, Version 3.5 [<http://plants.usda.gov>]. National Plant Data Center, Baton Rouge, LA 70874-4490 USA) and the Flora of North America treatments (Flora of North America Editorial Committee, eds. 1993+. Flora of North America North of Mexico. 7+ vols. New York and Oxford) when the taxonomy is more current.

COMMON NAME – This is the most commonly accepted English name for the plant, or the name most often used in New York.

COUNTIES OF OCCURRENCE - Each county is designated by the first four letters of its name. The county name is followed by a “C” (confirmed) if the plant is known with the county, a “P” (probable) if the plant was last documented by a specimen more than 20 years ago, or a “?” (possible) when it is possible that the plant occurs there because there have been unconfirmed reports of its existence (*i.e.*, oral report, plant list, literature citation). A county map is included at the end of this list. **Separate county lists are available upon request.**

GLOBAL AND STATE RANKS - These rarity ranks are maintained by NatureServe (www.NatureServe.org) and are used by Natural Heritage programs in every state. They are not linked to any legal penalties but provide information used for determining state and federal legal status of rare plants.

STATE AND FEDERAL STATUS - These status codes reflect rarity, vulnerability and the action priority status of plants. Their status is backed up by state and federal laws that provide penalties for the "taking" of plants.

EXPLANATION OF HERITAGE RANKS AND CODES

Each taxon has a global and state rank. The global rank reflects the rarity of the species throughout the world and the state rank reflects the rarity within New York State.

GLOBAL RANK

G1 = Critically imperiled throughout its range due to extreme rarity (5 or fewer sites or very few remaining individuals) or extremely vulnerable to extinction due to biological factors.

G2 = Imperiled throughout its range due to rarity (6 - 20 sites or few remaining individuals) or highly vulnerable to extinction due to biological factors.

G3 = Either very rare and local throughout its range (21 - 100 sites), with a restricted range (but possibly locally abundant), or vulnerable to extinction due to biological factors.

G4 = Apparently secure throughout its range (but possibly rare in parts).

G5 = Demonstrably secure throughout its range (but possibly rare in parts).

GH = No extant sites known but it may be rediscovered.

GX = Species believed extinct.

TU & T? = Status of the subspecies or variety unknown.

STATE RANK

S1 = Critically imperiled in New York State because of extreme rarity (5 or fewer sites or very few remaining individuals) or extremely vulnerable to extirpation from New York State due to biological factors.

S2 = Imperiled in New York State because of rarity (6 - 20 sites or few remaining individuals) or highly vulnerable to extirpation from New York State due to biological factors.

S3 = Rare in New York State (usually 21 - 35 extant sites).

S4 = Apparently secure in New York State.

S5 = Demonstrably secure in New York State.

SH = Historical. No existing sites known in New York State in the last 20 years but it may be rediscovered.

SX = Apparently extirpated from New York State, very low probability of rediscovery.

SR = Reported from the state, but existence has not been documented.

SU = Status uncertain because of the cryptic nature of the plant.

TAXON RANK

The T-ranks are defined in the same way as the Global ranks, but the T-rank only refers to the rarity of the subspecific taxon, not the rarity of the species as a whole. **If a species has a subspecific name that is the same as the species name it means there is also another subspecies of that species which we do not consider rare in New York or it does not occur in New York.**

DOUBLE RANKS (*i.e.*, S1S2, S2S3, S1S3)

The first rank indicates rarity based upon current documentation. The second rank indicates the probable rarity after all historical records and likely habitat have been checked.

DOUBLE RANKS DENOTE SPECIES THAT NEED ADDITIONAL FIELD SURVEYS.

A "Q" indicates a question exists whether or not the taxon is a good taxonomic entity.

A "?" indicates that an identification question exists about known occurrences. It also indicates the rank presumably corresponds to actual occurrences even though the information has not yet been documented in heritage files or historical records. It serves to flag species that need more field studies or specimen identification.

EXPLANATION OF PLANT LEGAL STATUS

FEDERAL LEGAL STATUS

The categories of federal status are defined by the U.S. Department of the Interior as part of the 1974 Endangered Species Act (see Code of Federal Regulations 50 CFR 17). Recent changes in federal status were published in the Federal Register on Feb. 28, 1996. Federal Categories 2 and 3 were eliminated and Category 1 changed to Candidate. A summary of federally listed plants is in the U.S. Fish and Wildlife Service publication "Endangered and Threatened Wildlife and Plants" (August 20, 1994).

Currently in New York there are 4 endangered plants, 7 threatened plants and no candidate plant species.

<u>Scientific Name</u>	<u>Common Name</u>	<u>Fed. Status</u>	<u>State Status</u>
<i>Agalinis acuta</i>	Sandplain Gerardia	Endangered	S1
<i>Isotria medeoloides</i>	Small Whorled Pogonia	Endangered	SH
<i>Schwalbea americana</i>	Chaffseed	Endangered	SX
<i>Scirpus ancistrochaetus</i>	Northeastern Bulrush	Endangered	SX
<i>Aconitum noveboracense</i>	Monkshood	Threatened	S2
<i>Amaranthus pumilus</i>	Seabeach Amaranth	Threatened	S2
<i>Asplenium scolopendrium</i> var. <i>americanum</i>	Hart's-tongue Fern	Threatened	S2
<i>Helonias bullata</i>	Swamp Pink	Threatened	SX
<i>Oligoneuron houghtonii</i>	Houghton's Goldenrod	Threatened	S1
<i>Platanthera leucophaea</i>	Prairie Fringed Orchid	Threatened	SH
<i>Sedum integrifolium</i> ssp. <i>leedyi</i>	Leedy's Roseroot	Threatened	S1

NEW YORK STATE LEGAL STATUS

The following categories are defined in regulation 6NYCRR part 193.3 and apply to New York State Environmental Conservation Law section 9-1503. Part (f) of the law reads as follows: "It is a violation for any person, anywhere in the state to pick, pluck, sever, remove, damage by the application of herbicides or defoliants, or carry away, without the consent of the owner, any protected plant. Each protected plant so picked, plucked, severed, removed, damaged or carried away shall constitute a separate violation." Violators of the regulation are subject to fines of \$25 per plant illegally taken. For your convenience, the DEC Protected Plant List is included as an appendix within this publication. Questions about DEC's Protected Plant list should be directed to the Division of Lands and Forests at (518) 402-9425.

E = Endangered Species: listed species are those with

- 1) 5 or fewer extant sites, or
- 2) fewer than 1,000 individuals, or
- 3) restricted to fewer than 4 U.S.G.S. 7 1/2 minute topographical maps, or
- 4) species listed as endangered by the U. S. Department of Interior, as enumerated in the Code of Federal Regulations 50 CFR 17.11.

T = Threatened: listed species are those with

- 1) 6 to fewer than 20 extant sites, or
- 2) 1,000 to fewer than 3,000 individuals, or
- 3) restricted to not less than 4 or more than 7 U.S.G.S. 7 1/2 minute topographical maps, or
- 4) listed as threatened by the U. S. Department of the Interior, as enumerated in the Code of Federal Regulations 50 CFR 17.11.

R = Rare: listed species have

- 1) 20 to 35 extant sites, or
- 2) 3,000 to 5,000 individuals statewide.

V = Exploitably vulnerable: listed species are likely to become threatened in the near future throughout all or a significant portion of their range within the state if causal factors continue unchecked.

U = Unprotected

EXPLANATION OF PHENOLOGY LIST

The phenology list shows the months of the year when the flowers (F), fruits (R) or vegetative parts (V) of each rare species can be seen. This information has been gathered from herbarium specimens, Heritage field data, Gray's Manual of Botany, and individual expertise. The months in which the plant can be seen may differ from year to year depending on the weather and there is often some overlap between flowering and fruiting times. Some species may not be visible for years at a time if they grow in a habitat where conditions conducive to germination or growth occur only sporadically (e.g., Coastal Plain Pond Shores). An attempt was made to include information that would assist searching for these species at a time when the plant could be identified properly. For some species there is very little information about phenology in New York State and assumptions were made from Gray's Manual of Botany. We would appreciate any information that would update this list and increase its accuracy.

ACKNOWLEDGEMENTS

The New York Natural Heritage Program gratefully acknowledges the efforts of all the field biologists and plant enthusiasts who have contributed to the database over the last 18 years. For our historical perspective, we are indebted to the curators and staff of more than 20 regional herbaria, especially Dr. Richard Mitchell and Dr. Charles Sheviak of the botany department of the New York State Museum, Dr. Steven Clemants of the Brooklyn Botanic Garden, Robert Dirig of Cornell University, and Jackie Kallunki of the New York Botanical Garden, who have provided access to specimens, invaluable assistance, and knowledge of rare plant natural history. Additional thanks to NY Natural Heritage staff Rachel Novak, Betty Ketcham, Tim Howard, and Charlene Houle, and NatureServe staff Leah Oliver and Kat Maybury who spent many hours updating our new database and report-making software used to create this list.

Thanks also to the participants in the annual status review for their valuable and timely comments on rare plant status and natural history. The April 2004 participants were Jason Denham, Francis Groeters, Joe McMullen, Charlie Smith, Troy Weldy, David Werier, Bob Wesley, and Steve Young with written contributions from Steve Clemants, Chuck Sheviak, and Anne Johnson. We would like to extend our many thanks to the various taxonomic experts who have graciously shared their time and expertise. These include Harvey Ballard (Violaceae), Bernd Blossey (*Phragmites*), Steve Clemants (Chenopodiaceae and Juncaceae), Melissa Dow Cullina (*Bidens*), Barre Helquist (Potamogetonaceae and other aquatics), John Kartesz (general taxonomy), Eric Lamont (Asteraceae), Gerry Moore (Rosaceae), Jay Raveill (Fabaceae), Tony Reznicek (*Carex*), Chuck Sheviak (Orchidaceae), Galen Smith (*Scirpus*), David Snyder (*Pycnanthemum*), and David Werier (*Carex*).

We also wish to thank the many regional botanists, naturalists, and many others who have contributed information about the locations and natural history of rare plants. These people include Spider Barbour, Jack Focht, and Richard Mitchell (Hudson Highlands), Kerry Barringer (Hudson Highlands and Long Island), Doug Bassett (Letchworth State Park), John Bierhorst and Sam Adams (Catskills), Steve Clemants, Skip Blanchard, Andy Greller, Eric Lamont and Laura Schwanoff (Long Island), Michael Corey (Lake Champlain and Adirondacks), David deLaubenfels (Onondaga County), Patricia Eckel (western New York), Nancy Eldblom and Anne Johnson (St. Lawrence County), Bruce Gilman (Finger Lakes), Ted Grisez (southwestern New York), Warren Broderick and Bob Ingalls (Rensselaer County), Erik Kiviat and Gretchen Stevens (Hudson Valley), David Kunstler (NYC Parks), Don Leopold, Matt Buff, Jordan Metzgar, Joe McMullen, and Brian and Eileen Keelan (central New York), Ray Matarrazo and Richard Lynch (Staten Island), Ed McGowan (Shawangunks), Gerry Moore (Long Island and southeastern New York), Andy Nelson (Oswego County), Ken Soltesz (Westchester County), Dan Spada, Sunita Halasz, and Mike Kudish (Adirondacks and Catskills), Jim Utter (southern Hudson Valley), Donna Voglerd (Otsego County), David Werier (Hudson Highlands and Finger Lakes region), Bob Wesley (Finger Lakes region), Bob Zaremba (Long Island and Hudson Valley), the Adirondack Summit Stewards, the Long Island *Amaranthus* survey participants, The Nature Conservancy stewardship staff, especially Bruce Horwith, Marilyn Jordan, Joe Janssen, and Sandy Bonanno, and the NY Natural Heritage Program staff.

Changes To The May 2003 Rare Plant Status List

Below is a summary of the changes made to the rare plant list since the publication of May 2003.

I. Taxa removed from the active list.

	<u>Reason</u>
<i>Carex laxiflora</i> var. <i>serrulata</i>	A variety put in synonymy with the common species.
<i>Paspalum setaceum</i> var. <i>psammophilum</i>	A variety put in synonymy with the common species.
<i>Paspalum setaceum</i> var. <i>setaceum</i>	A variety put in synonymy with the common species.
<i>Polygonum hydropiperoides</i> var. <i>opelousanum</i>	A variety put in synonymy with the common species.

II. Taxa removed from the active list and placed on the watch list because survey work has shown they are more common than previously thought.

	<u>Old Rank</u>	<u>New Rank</u>
<i>Carex willdenowii</i>	S2S3	S3
<i>Ranunculus micranthus</i>	S2S3	S3
<i>Utricularia minor</i>	S2S3	S3

III. Taxa moved to the active list from the watch list.

	<u>Old Rank</u>	<u>New Rank</u>
<i>Scleria muehlenbergii</i>	S3	S1 due to taxonomic change.

IV. Taxa moved to the watch list from the review list.

	<u>Global rank</u>	<u>State rank</u>
<i>Phragmites</i> sp. 1 (native strain)	G4	S3

V. Taxa removed from the review list.

	<u>Reason</u>
<i>Eupatorium album</i> var. <i>album</i>	Determined not to be in New York.
<i>Schizachyrium scoparium</i> var. <i>littorale</i>	Not rare on Long Island.
<i>Agrostis altissima</i>	Put in synonymy with <i>Agrostis perennans</i> .

VI. Taxa added to the review list.

Athyrium felix-femina ssp. *asplenioides* – Southern Lady Fern - We would like to know if this is rare in the Lower Hudson area and Long Island.

Carex careyana – Sedge – Not many occurrences have been seen lately. More herbarium and fieldwork are needed in Central New York to determine if it is rare.

VII. Taxa whose state ranks have changed but are still on the active list.

	<u>Old rank</u>	<u>New rank</u>
<i>Arabis drummondii</i>	S1	S2
<i>Aristolochia serpentaria</i>	S1	S1S2
<i>Botrychium oneidense</i>	S1S3	S2S3
<i>Carex glaucoidea</i>	S1	S2S3
<i>Carex nigromarginata</i>	S1	S1S2
<i>Carex retroflexa</i>	S1S2	S2S3
<i>Crataegus uniflora</i>	SH	S1
<i>Cyperus schweinitzii</i>	S3	S2S3
<i>Eleocharis ovata</i>	S1S2	S1
<i>Erechtites hieracifolia</i> var. <i>megalocarpa</i>	S1	S2
<i>Eupatorium serotinum</i>	S1	S2
<i>Hydrangea arborescens</i>	S1	S2
<i>Stachys hyssopifolia</i>	S1S2	S2
<i>Triphora trianthophora</i>	S1S2	S2

VIII. Taxa still on the rare plant list but with scientific name changes. Note: many name changes have taken place in the Aster family, especially in the genus Aster.

Old name	New name
<i>Acalypha virginica</i> var. <i>virginica</i>	<i>Acalypha virginica</i>
<i>Anemone multifida</i>	<i>Anemone multifida</i> var. <i>hudsoniana</i>
<i>Anthoxanthum monticolum</i> ssp. <i>orthanthum</i>	<i>Hierochloe alpina</i> ssp. <i>orthantha</i>
<i>Artemisia campestris</i> var. <i>borealis</i>	<i>Artemisia campestris</i> ssp. <i>borealis</i>
<i>Aster borealis</i>	<i>Symphyotrichum boreale</i>
<i>Aster ciliolatus</i>	<i>Symphyotrichum ciliolatum</i>
<i>Aster concolor</i>	<i>Symphyotrichum concolor</i>
<i>Aster laevis</i> var. <i>concinnum</i>	<i>Symphyotrichum laeve</i> var. <i>concinnum</i>
<i>Aster lanceolatus</i> var. <i>interior</i>	<i>Symphyotrichum lanceolatum</i> var. <i>interior</i>
<i>Aster longifolius</i>	<i>Symphyotrichum novi-belgii</i> var. <i>villicaule</i>
<i>Aster nemoralis</i>	<i>Oclemena nemoralis</i>
<i>Aster ontarionis</i>	<i>Symphyotrichum ontarionis</i>
<i>Aster oolentangiensis</i>	<i>Symphyotrichum oolentangiense</i>
<i>Aster radula</i>	<i>Eurybia radula</i>
<i>Aster solidagineus</i>	<i>Sericocarpus linifolius</i>
<i>Aster spectabilis</i>	<i>Eurybia spectabilis</i>
<i>Aster subulatus</i>	<i>Symphyotrichum subulatum</i>
<i>Aster tenuifolius</i>	<i>Symphyotrichum tenuifolium</i>
<i>Atriplex subspicata</i>	<i>Atriplex dioica</i>
<i>Bulboschoenus maritimus</i>	<i>Bulboschoenus maritimus</i> ssp. <i>paludosus</i>
<i>Bulboschoenus novae-angliae</i>	<i>Bulboschoenus novae-angliae</i>
<i>Calamintha arkansana</i>	<i>Clinopodium arkansanum</i>
<i>Calypso bulbosa</i>	<i>Calypso bulbosa</i> var. <i>americana</i>
<i>Campanula americana</i>	<i>Campanulastrum americanum</i>
<i>Carex amphibola</i> var. <i>amphibola</i>	<i>Carex amphibola</i>
<i>Carex livida</i> var. <i>radicaulis</i>	<i>Carex livida</i>
<i>Carex venusta</i> var. <i>minor</i>	<i>Carex venusta</i>
<i>Deschampsia atropurpurea</i>	<i>Vahlodea atropurpurea</i>
<i>Diplachne maritima</i>	<i>Leptochloa fusca</i> ssp. <i>fascicularis</i>
<i>Echinodorus parvulus</i>	<i>Echinodorus tenellus</i>
<i>Eleocharis obtusa</i> var. <i>ovata</i>	<i>Eleocharis ovata</i>
<i>Eriophorum angustifolium</i> ssp. <i>scabriusculum</i>	<i>Eriophorum angustifolium</i>
<i>Eupatorium aromaticum</i>	<i>Ageratina aromatica</i> var. <i>aromatica</i>
<i>Gaylussacia dumosa</i> var. <i>bigeloviana</i>	<i>Gaylussacia dumosa</i>
<i>Gentianopsis procera</i>	<i>Gentianopsis virgata</i>
<i>Gnaphalium helleri</i> var. <i>micradenium</i>	<i>Pseudognaphalium helleri</i> ssp. <i>micradenium</i>
<i>Gnaphalium purpureum</i>	<i>Gamochaeta purpurea</i>
<i>Gnaphalium sylvaticum</i>	<i>Omalotheca sylvatica</i>
<i>Hedeoma hispidum</i>	<i>Hedeoma hispida</i>
<i>Juncus marginatus</i> var. <i>biflorus</i>	<i>Juncus biflorus</i>
<i>Juncus stygius</i> var. <i>americanus</i>	<i>Juncus stygius</i> ssp. <i>americanus</i>
<i>Kosteletzkyia virginica</i> var. <i>aquilonia</i>	<i>Kosteletzkyia virginica</i>
<i>Oryzopsis canadensis</i>	<i>Piptatherum canadense</i>

Old name	New name
<i>Panicum boreale</i>	<i>Dichanthelium boreale</i>
<i>Panicum leibergii</i>	<i>Dichanthelium leibergii</i>
<i>Panicum scabriuscum</i>	<i>Dichanthelium scabriuscum</i>
<i>Panicum scoparium</i>	<i>Dichanthelium oligosanthes</i> var. <i>scribnerianum</i>
<i>Panicum stipitatum</i>	<i>Panicum rigidulum</i> var. <i>elongatum</i>
<i>Panicum villosissimum</i>	<i>Dichanthelium villosissimum</i> var. <i>villosissimum</i>
<i>Panicum wrightianum</i>	<i>Dichanthelium wrightianum</i>
<i>Plantago maritima</i> ssp. <i>juncoides</i>	<i>Plantago maritima</i> var. <i>juncoides</i>
<i>Poa fernaldiana</i>	<i>Poa laxa</i> ssp. <i>fernaldiana</i>
<i>Poa interior</i>	<i>Poa nemoralis</i> ssp. <i>interior</i>
<i>Polygonum setaceum</i> var. <i>interjectum</i>	<i>Polygonum setaceum</i>
<i>Polymnia uvedalia</i>	<i>Smallanthus uvedalius</i>
<i>Rorippa aquatica</i>	<i>Neobreckia aquatica</i>
<i>Rumex maritimus</i> var. <i>fueginus</i>	<i>Rumex maritimus</i>
<i>Rumex maritimus</i> var. <i>persicarioides</i>	<i>Rumex maritimus</i>
<i>Saxifraga paniculata</i>	<i>Saxifraga paniculata</i> ssp. <i>neogaea</i>
<i>Scleria muehlenbergii</i> (in part)	<i>Scleria reticularis</i>
<i>Silene caroliniana</i>	<i>Silene caroliniana</i> ssp. <i>pensylvanica</i>
<i>Solidago elliottii</i>	<i>Solidago latissimifolia</i>
<i>Solidago houghtonii</i>	<i>Oligoneuron houghtonii</i>
<i>Solidago ohioense</i>	<i>Oligoneuron ohioense</i>
<i>Solidago ptarmicoides</i>	<i>Oligoneuron album</i>
<i>Solidago rigida</i>	<i>Oligoneuron rigidum</i> var. <i>rigidum</i>
<i>Sphenopholis obtusata</i> var. <i>obtusata</i>	<i>Sphenopholis obtusata</i>
<i>Subularia aquatica</i> ssp. <i>americana</i>	<i>Subularia aquatica</i> var. <i>americana</i>
<i>Tofieldia glutinosa</i>	<i>Triantha glutinosa</i>
<i>Trichostema brachiatum</i>	<i>Isanthus brachiatus</i>
<i>Triglochin palustris</i>	<i>Triglochin palustre</i>
<i>Uvularia puberula</i> var. <i>nitida</i>	<i>Uvularia puberula</i>
<i>Vaccinium caespitosum</i>	<i>Vaccinium caespitosum</i>
<i>Viola rafinesquii</i>	<i>Viola bicolor</i>

2004 Rare Plant Status List - Active Inventory List

Scientific Name	Common Name	Counties of Occurrence				Global Rank	State Rank	State Status

2004 Rare Plant Status List – Review List

This review list contains species that may be rare within New York, but more work is needed to determine their distribution within the state, resolve taxonomic/identification problems, etc. before their state rarity can be documented. Within the list you will find the species, their global and estimated state rarity rank, and the reasons why each species is listed. We welcome and encourage anyone to submit comments about these species.

Scientific Name	Common Name	Reasons for including on the review list	Global Rank	State Rank
<i>Agalinis tenuifolia</i> var. <i>macrophylla</i>	Bessey's False-Foxglove	There is some taxonomic confusion with this variety. Judith Canne-Hilliker lumped this under var. <i>tenuifolia</i> , but Mitchell currently has this listed as a unique variety. Kartesz and the USDA Plants Database recognize this as a distinct variety. If recognized separately, it is rare within New York.	G5T4T5	SR
<i>Agalinis tenuifolia</i> var. <i>parviflora</i>	Slender Foxglove	Most authorities recognize this variety. There are very few recent records and this is likely rare. More research on its distribution and clarification of the taxonomy are needed.	G5T4	SR
<i>Andropogon glomeratus</i> var. <i>glomeratus</i>	Bushy Bluestem	This appears to only occur on Long Island and NYC. We need to know how common this is there.	G5T5	S2?
<i>Anemone virginiana</i> var. <i>cylindroidea</i>	Thimbleweed	There are very few records of this variety, but it may be overlooked. All specimens of <i>Anemone virginica</i> need to be reviewed and identified to variety to better determine the rarity of this variety. We also need to determine field characters to identify this variety.	G5TNR	S3?
<i>Aristida longespica</i> var. <i>geniculata</i>	Slender Three-Awn grass	This appears to only occur on Long Island and NYC. We need to know how common this is there. It may be limited to pine barren areas and the sands around coastal plain ponds.	G5T5?	S3?
<i>Aristida longespica</i> var. <i>longespica</i>	Slender Three-Awn grass	This appears to only occur on Long Island and NYC. We need to know how common this is there. It may be limited to pine barren areas and the sands around coastal plain ponds.	G5T5?	S3?
<i>Athyrium felix-femina</i> ssp. <i>asplenioides</i>	Southern Lady Fern	We would like to know if this is rare in the Lower Hudson area and Long Island	G5T5	S3?
<i>Aureolaria flava</i> var. <i>macrantha</i>	Yellow Foxglove	There are only seven records of this variety, with the most recent collection in 1926. There are a number of herbarium specimens not identified to variety. The specimens need to be identified to variety to better determine the rarity of this variety.	G5TNR	S1?
<i>Bromus nottowayanus</i>	Nottoway Brome Grass	Accepted by John Kartesz (1994 checklist) and by Leon Pavlick (Univ. British Columbia, Bromus specialist), although many past authors did not recognize this as a distinct species. Often included under or confused with <i>Bromus purgans</i> , <i>Bromus pubescens</i> , or <i>Bromus latiglumis</i> . The flower has a 5-nerved second glume. Kartesz cites Mitchell (1997) as his source to include New York as part of the range. We need to determine if New York is really a part of the range and if this is a good taxonomic entity worth recognizing. Nothing is known about its New York distribution. Mitchell does not recognize this taxon.	G3G5	SR

2004 Rare Plant Status List – Review List

Scientific Name	Common Name	Reasons for including on the review list	Global Rank	State Rank
<i>Cakile edentula</i> var. <i>lacustris</i>	American Sea Rocket	This is restricted to the shores of the Great Lakes where it may be possible to see both varieties. There are many herbarium specimens that need to be identified to variety. We need to hear from the Great Lakes botanists regarding how often they see this variety.	G5T3T5	S3?
<i>Calamagrostis canadensis</i> var. <i>langsdorffii</i>	Bluejoint Grass	This is separated from the more common <i>C. canadensis</i> by a larger inflorescence. If recognized, it is likely a northern taxon reaching its southern limit in New York. All <i>Calamagrostis canadensis</i> specimens need to be annotated to variety to better determine the rarity of this variety. Synonymous with var. <i>scabra</i> .	G5T5	S1?
<i>Calystegia sepium</i> ssp. <i>angulata</i>	Wild Morning Glory	There are no dots in the NY Flora Atlas and little is known about this variety.	G5T5	S?
<i>Carex careyana</i>	Carey's Sedge	Not many occurrences have been seen lately. More herbarium and fieldwork are needed in Central New York to determine if it is rare.	G4G5	S2?
<i>Carex scoparia</i> var. <i>tesselata</i>	Pointed Broom Sedge	There is only a single dot from Suffolk County, attributed to a single collection from Montauk. Reznicek has said it is a good taxon. The Suffolk County specimen needs to be verified and many of the <i>Carex scoparia</i> specimens, particularly those from Suffolk County, need to be identified to variety.	G5TNR	SH?
<i>Carex vesicaria</i> var. <i>distenta</i>	Inflated Sedge	Little is known about this variety.	G5TNR	S?
<i>Carex vesicaria</i> var. <i>jejuna</i>	Inflated Sedge	Little is known about this variety.	G5T5?	S?
<i>Carex vesicaria</i> var. <i>monile</i>	Inflated Sedge	Little is know about this variety.	G5T4	S?
<i>Celastrus scandens</i>	American Bittersweet	The exotic <i>Celastrus orbiculatus</i> may be out-competing this native to the point of rarity. We need current distribution information.	G5	S3S5
<i>Chenopodium missouriense</i>	Missouri Goosefoot	Range-wide studies needed to determine its native status within New York.	G5	SH
<i>Chenopodium foggii</i>	Fogg's Goosefoot	It is unknown if any vouchers exist from New York. Further studies needed to determine the validity of this species.	G3Q	SR
<i>Corallorrhiza odontorhiza</i> var. <i>pringlei</i>	Autumn Coral-Root	Little is known about this variety. At the variety level, it is globally rare. The monograph of <i>Corallorrhiza</i> by John Freudenstein (Harvard Papers in Botany, 1997) does include New York within the range of this variety, with at least one specimen identified to this variety.	G5T2T4	SR

2004 Rare Plant Status List – Review List

Scientific Name	Common Name	Reasons for including on the review list	Global Rank	State Rank
<i>Eleocharis wolfii</i>	Wolf's spikerush	This species has a “wide range” but is apparently rare throughout much of its northern range (NatureServe Explorer 2002). It is poorly known and may be overlooked due to insufficient inventory. It is threatened by the loss of its native wetland and grassland habitat. Fernald lists Long Island as a disjunct population, but Mitchell considers the Long Island populations adventive. Based upon its global distribution, this could be a true native in western New York as there are populations close by in neighboring states. More work is needed to determine its distribution. Closely related taxa should be verified to determine no <i>E. wolfii</i> are hiding in these folders.	G3?	SE
<i>Epilobium ciliatum</i> ssp. <i>glandulosum</i>	Willow-Herb	Specimens need more study to determine native status.	G5T5	SH?
<i>Erigeron philadelphicus</i> var. <i>provancheri</i>	Philadelphia Fleabane	Little is known about this variety.	G5T2?	SR
<i>Eupatorium sessilifolium</i> var. <i>brittonianum</i>	Upland Boneset	Very few herbarium specimens of <i>Eupatorium sessilifolium</i> are identified to variety. This needs to be identified to variety to better determine the rarity of both varieties.	G5T3T5	S?
<i>Eupatorium sessilifolium</i> var. <i>sessilifolium</i>	Upland Boneset	Very few herbarium specimens of <i>Eupatorium sessilifolium</i> are identified to variety. This needs to be identified to variety to better determine the rarity of both varieties.	G5T5	S?
<i>Fuirena squarrosa</i>	Hairy Umbrella-Sedge	A voucher specimen is reportedly located at NYBG. We need to track down this voucher and verify the identification.	G4G5	SX?
<i>Glyceria obtusa</i>	Blunt Manna-Grass	This appears to only occur on Long Island and NYC with a disjunct from Cayuga County. We need to know how common this is on Long Island.	G5	S3?
<i>Huperzia porophila</i>	Rock Clubmoss	Within New York, we do have a single population of <i>Huperzia lucidula</i> x <i>porophila</i> (= <i>H. x bartleyi</i>), but no known populations of <i>Huperzia porophila</i> are located within New York. With this hybrid of <i>H. porophila</i> located within the state, we need to keep an eye open for this species.	G4	SU
<i>Isoetes acadiensis</i>	Acadian Quillwort	A specimen from Stoner Lakes has been identified to this species. This is a southern Adirondack lake, typical of the many other lakes throughout the Adirondacks. More surveys are needed to determine if this is known from other shallow acidic lakes. Mitchell does not believe this species is a good entity. It is closely aligned with <i>Isoetes tuckermanii</i> and is known to hybridize with <i>Isoetes lacustris</i> , both well known from the Adirondack Lakes. More studies are needed to determine if there are consistent, dependable morphological characters that may be used to identify this species. The Stoner Lake specimen should also be confirmed to determine that it is not a hybrid with either <i>I. tuckermanii</i> or <i>I. lacustris</i> as one of the parents. Broader studies are needed to determine if this is a good entity or not.	G2G3	S1?
<i>Lathyrus japonicus</i> var. <i>pellitus</i>	Beach-Pea	This appears to only occur on Long Island and NYC. We need to know how common this is on Long Island.	G5T5	S3S4?
<i>Lonicera dioica</i> var. <i>glaucescens</i>	Wild Honeysuckle	There are few records in the atlas. We need to know how common this is.	G5T?	S3?

2004 Rare Plant Status List – Review List

Scientific Name	Common Name	Reasons for including on the review list	Global Rank	State Rank
<i>Lupinus perennis</i> ssp. <i>perennis</i>	Wild Lupine	This plant may be declining in New York. More information is needed about present distribution and condition in the state. Herbarium information needs to be recorded and sites reviewed. It is an important food plant for rare butterflies.	G5T4?	S3?
<i>Malus glaucescens</i>	Sweet Crab-Apple	This is a native crabapple from western New York. There is some taxonomic confusion between this and <i>Malus coronaria</i> . All specimens of both species need to be verified to determine their rarity and distribution. More studies are needed to determine if this is a good entity.	G4?Q	S2?
<i>Mertensia paniculata</i> var. <i>paniculata</i>	Tall Bluebells	Specimens need to be verified and a determination needs to be made on its native status.	G5T5	S?
<i>Monarda media</i>	Purple Bergamot	There is some taxonomic confusion around this plant. Some treat it as a species and others as a hybrid. More research on its taxonomic status is needed.	G4?	S2?
<i>Monarda punctata</i> var. <i>punctata</i>	Spotted Bee-Balm	Only known from Suffolk County. We need to know how common this is on Long Island.	G5T5	S1?
<i>Muhlenbergia torreyana</i>	Torrey's Dropseed	A voucher is reportedly located at NYBG. We need to track down this voucher and verify the identification. The Sporobolus folders should also be checked as this was previously known as <i>S. torreyanus</i> and <i>S. compressus</i> .	G3	SX
<i>Nuphar rubrodisca</i>	Purple-Spotted Pondlily	Only mentioned here because of the global rank. We need to know how common this is to better determine the global rank.	G3G5	S3S5
<i>Panax quinquefolium</i>	American Ginseng	Ginseng is only mentioned because of the global rank. We need an estimate of the total number of naturally occurring populations known within the state in order to provide ample evidence that the global rank should be a G4.	G3G4	S3S4
<i>Phaseolus polystachios</i> var. <i>polystachios</i>	Wild Kidney Bean	We need to clarify this species native/non-native status and determine its distribution.	G4T4	S1?
<i>Phoradendron leucarpum</i>	American Mistletoe	This plant is mentioned in the literature from Staten Island. We need to locate a voucher and determine if it was ever a native on Staten Island.	G5	SX
<i>Pityopsis falcata</i>	Sickle-Leaf Golden-Aster	Only recorded from Long Island, NYC, and Staten Island, but potentially abundant there. Only included because of the global rank. We need to estimate the total number of populations and population sizes to justify changing its global rank to a G4 or G5.	G3G4	S3?
<i>Polygala cruciata</i> var. <i>aquilonia</i>	Crossleaf Milkwort	We need to check identify of western/central New York material. We also need to know how common this is on Long Island.	G5T4	S3?
<i>Polygala verticillata</i> var. <i>ambigua</i>	Whorled Milkwort	We need to annotate many specimens to variety. The distribution of this variety is not well known.	G5T5?	S3?
<i>Polygala verticillata</i> var. <i>isocycla</i>	Whorled Milkwort	We need to annotate many specimens to variety. The distribution of this variety is not well known.	G5T5	S3?

2004 Rare Plant Status List – Review List

Scientific Name	Common Name	Reasons for including on the review list	Global Rank	State Rank
<i>Proserpinaca palustris</i> var. <i>palustris</i>	Mermaid-Weed	There is one dot from Suffolk County. We need to know how common this is on Long Island. Both varieties are present on Long Island, but there are few specimens of this variety.	G5T5	S1?
<i>Ptilimnium capillaceum</i>	Mock Bishop-Weed	Restricted to Long Island. We need to know how common this is on Long Island and the habitats where it is observed.	G5	S3?
<i>Ranunculus abortivus</i> var. <i>eucyclus</i>	Kidney-Leaf Crowfoot	We need to annotate many specimens to variety. The distribution of this variety is not well known.	G5T?	S2?
<i>Rosa blanda</i> var. <i>glabra</i>	Northern Rose	This is a taxonomically questionable entity. We need to annotate many specimens to variety. The distribution of this variety is not well known.	G5T4?Q	S?
<i>Rosa setigera</i> var. <i>tomentosa</i>	Prairie Rose	We need to annotate many specimens to variety. The distribution of this variety is not well known.	G5T5?	S1?
<i>Rudbeckia hirta</i> var. <i>hirta</i>	Black-Eyed Susan	Specimens need more study to determine native status.	G5T4T5	SH
<i>Sisyrinchium montanum</i> var. <i>crebrum</i>	Blue-Eyed Grass	Very few herbarium specimens are identified to variety. We need to identify these to variety and determine its distribution.	G5T4T5	S1?
<i>Solidago canadensis</i> var. <i>hargeri</i>	Canadian Goldenrod	Very few herbarium specimens are identified to variety. We need to identify these to variety and determine its distribution.	G5T4T5	S3?
<i>Solidago rugosa</i> ssp. <i>aspera</i>	Rough-Leaf Goldenrod	Very few herbarium specimens are identified to subspecies. We need to identify these to subspecies and determine its distribution.	G5T5	S1
<i>Solidago rugosa</i> var. <i>sphagnophila</i>	Rough-Leaf Goldenrod	Very few herbarium specimens are identified to variety. We need to identify these to variety and determine its distribution.	G5T3T5	SH
<i>Solidago rugosa</i> ssp. <i>rugosa</i> var. <i>villosa</i>	Rough-Leaf Goldenrod	Very few herbarium specimens are identified to variety. We need to identify these to variety and determine its distribution.	G5T?	S?
<i>Solidago uliginosa</i> var. <i>levipes</i>	Bog Goldenrod	Very few herbarium specimens are identified to variety. We need to identify these to variety and determine its distribution. NatureServe includes only Ontario and New York as the range of this plant. Not listed by Mitchell.	G4G5T?	SR
<i>Solidago uliginosa</i> var. <i>linoides</i>	Bog Goldenrod	Very few herbarium specimens are identified to variety. We need to identify these to variety and determine its distribution.	G4G5T4T5	S?
<i>Solidago uliginosa</i> var. <i>uliginosa</i>	Bog Goldenrod	Very few herbarium specimens are identified to variety. We need to identify these to variety and determine its distribution.	G4G5T4T5	S?
<i>Spiraea tomentosa</i> var. <i>rosea</i>	Hardhack Spiraea	Very few herbarium specimens are identified to variety. We need to identify these to variety and determine its distribution.	G5T5	S?

2004 Rare Plant Status List – Review List

Scientific Name	Common Name	Reasons for including on the review list	Global Rank	State Rank
<i>Symphyotrichum lancolatum</i> var. <i>Calico Aster</i> <i>hirsuticaule</i>		The specimens need more study to separate the varieties. Some sources list this taxon at the species level (<i>Symphyotricum hirsuticaule</i>).	G5TNR	SH
<i>Symphyotrichum novi-belgii</i> var. <i>New York Aster</i> <i>villicae</i>		Based upon the NY Flora Atlas, this is a northern species with a very restricted distribution in New York. Very few herbarium specimens of <i>Aster novi-belgii</i> are identified to variety. The specimens need to be identified to variety to better determine the rarity of this variety.	G5TNR	S3?
<i>Toxicodendron radicans</i> ssp. <i>negundo</i>	Poison Ivy	Very few herbarium specimens are identified to variety. We need to identify these to variety and determine its distribution.	G5T5	S?
<i>Toxicodendron rydbergii</i>	Northern Poison Oak	We need more records to determine rarity. In particular, we need to know how abundant this may or may not be within the Adirondacks.	G5	S3?
<i>Zizania aquatica</i>	Wild Rice	The specimens need to be annotated and separated. Many people call all rice grass <i>Zizania aquatica</i> without looking at the keys. Is there a distribution difference? We presume that <i>Zizania aquatica</i> is very common, but <i>Zizania palustris</i> may be rarer.	G5	S5
<i>Zizania palustris</i>	Wild Rice	We need to review all <i>Zizania aquatica</i> and <i>Zizania palustris</i> specimens to determine complete distribution and rarity of <i>Zizania palustris</i> . Very few specimens are located in herbaria, but many may be filed under <i>Zizania aquatica</i> .	G4G5	S?

Appendix I: NYS DEC Protected Plant List

193.3 Protected native plants.

(a) All plants enumerated on the lists of endangered species in subdivision (b) of this section, threatened species in subdivision (c) of this section, rare species in subdivision (d) of this section, or exploitably vulnerable species in subdivision (e) of this section are protected native plants pursuant to section 9-1503 of the Environmental Conservation Law. The common names contained on these lists are included for information purposes only; the scientific name shall be used for the purpose of determining any violation. Site means a colony or colonies of plants separated from other colonies by at least one-half mile.

(b) The following are **endangered** native plants in danger of extirpation throughout all or a significant portion of their ranges within the state and requiring remedial action to prevent such extinction. Listed plants are those with five or fewer extant sites, or fewer than 1,000 individuals, or restricted to fewer than four U.S.G.S. 7 1/2 minute series maps, or species listed as endangered by the United States Department of Interior in the *Code of Federal Regulations*.

Species	Common Name
<i>Acalypha virginica</i> var. <i>virginica</i>	VIRGINIA THREE-SEEDED MERCURY
<i>Adoxa moschatellina</i>	MOSCHATEL
<i>Agalinis acuta</i>	SANDPLAIN GERARDIA
<i>Allium burdickii</i>	WILD LEEK
<i>Amaranthus pumilus</i>	SEABEACH AMARANTH
<i>Amelanchier nantucketensis</i>	NANTUCKET JUNEERRY
<i>Ammophila champlainensis</i>	CHAMPLAIN BEACHGRASS
<i>Amphicarpum purshii</i>	PEANUT GRASS
<i>Angelica lucida</i>	ANGELICA
<i>Anthoxanthum monticolum</i> ssp. <i>orthanthum</i>	ALPINE SWEETGRASS
<i>Aplectrum hyemale</i>	PUTTYROOT
<i>Arabis drummondii</i>	DRUMMOND'S ROCK CRESS
<i>Arabis shortii</i>	TOOTHED ROCK-CRESS
<i>Aristolochia serpentaria</i>	VIRGINIA SNAKEROOT
<i>Arnica lanceolata</i>	ARNICA
<i>Artemisia campestris</i> var. <i>borealis</i>	WILD SAGE
<i>Asclepias variegata</i>	WHITE MILKWEED
<i>Asplenium bradleyi</i>	BRADLEY'S SPLEENWORT
<i>Asplenium trichomanes-ramosum</i>	GREEN SPLEENWORT
<i>Aster ciliolatus</i>	LINDLEY'S ASTER
<i>Aster concolor</i>	SILVERY ASTER
<i>Aster laevis</i> var. <i>concinnus</i>	SMOOTH BLUE ASTER
<i>Aster lanceolatus</i> var. <i>interior</i>	TALL WHITE ASTER
<i>Aster lateriflorus</i> var. <i>hirsuticanis</i>	CALICO ASTER
<i>Aster oolentangiensis</i>	SKY-BLUE ASTER
<i>Aster puniceus</i> var. <i>furmus</i>	CORNEL-LEAVED ASTER
<i>Aster radula</i>	SWAMP ASTER
<i>Astragalus neglectus</i>	COOPER'S MILKVETCH
<i>Atriplex glabriuscula</i>	SEASIDE ORACH
<i>Atriplex subspicata</i>	ORACHE
<i>Bartonia paniculata</i>	SCREW-STEM

<i>Chaerophyllum procumbens</i>	SPREADING CHERVIL
<i>Chasmanthium laxum</i>	SLENDER SPIKEGRASS
<i>Cheilanthes lanosa</i>	WOOLY LIP-FERN
<i>Chenopodium album</i> var. <i>missouriense</i>	MISSOURI GOOSEFOOT
<i>Chenopodium berlandieri</i> var. <i>macrocalyxium</i>	LARGE CALYX GOOSEFOOT
<i>Collinsia verna</i>	BLUE-EYED-MARY
<i>Corallorrhiza striata</i>	STRIPED CORALROOT
<i>Corema conradii</i>	BROOM CROWBERRY
<i>Cornus drummondii</i>	ROUGH-LEAF DOGWOOD
<i>Crassula aquatica</i>	PIGMYWEED
<i>Crataegus berberifolia</i>	HAWTHORN
<i>Crataegus compacta</i>	COMPACT HAWTHORN
<i>Crataegus mollis</i>	DOWNTY HAWTHORN
<i>Crataegus uniflora</i>	DWARF HAWTHORN
<i>Crotalaria sagittalis</i>	RATTLEBOX
<i>Cuscuta cephalanthi</i>	BUTTON-BUSH DODDER
<i>Cuscuta obtusiflora</i> var. <i>glandulosa</i>	SOUTHERN DODDER
<i>Cuscuta polygonorum</i>	SMARTWEED DODDER
<i>Cynoglossum virginianum</i> var. <i>boreale</i>	NORTHERN WILD COMFREY
<i>Cynoglossum virginianum</i> var. <i>virginianum</i>	WILD COMFREY
<i>Cyperus echinatus</i>	GLOBOSE FLATSEDGE
<i>Cyperus flavescens</i> var. <i>flavescens</i>	YELLOW FLATSEDGE
<i>Cyperus polystachyos</i> var. <i>texensis</i>	COAST FLATSEDGE
<i>Cyperus retrorsus</i>	RETROSE FLATSEDGE
<i>Cypripedium candidum</i>	SMALL WHITE LADYSLIPPER
<i>Cypripedium parviflorum</i> var. <i>parviflorum</i>	SMALL YELLOW LADYSLIPPER
<i>Cystopteris protrusa</i>	LOWLAND FRAGILE FERN
<i>Descurainia pinnata</i> ssp. <i>brachycarpa</i>	NORTHERN TANSEY-MUSTARD
<i>Desmodium humifusum</i>	SPREADING TICK-CLOVER
<i>Desmodium laevigatum</i>	SMOOTH TICK-CLOVER
<i>Desmodium nuttallii</i>	NUTTALL'S TICK-CLOVER
<i>Desmodium obtusum</i>	BEGGAR-LICE
<i>Desmodium pauciflorum</i>	SMALL-FLOWERED TICK-CLOVER
<i>Diarrhena obovata</i>	BEAKGRASS
<i>Diplachne maritima</i>	SALT-MEADOW GRASS
<i>Draba glabella</i>	ROCK-CRESS
<i>Dracocephalum parviflorum</i>	AMERICAN DRAGONHEAD
<i>Dryopteris celsa</i>	LOG FERN

Appendix I: NYS DEC Protected Plant List

<i>Dryopteris fragrans</i>	FRAGRANT CLIFF FERN
<i>Eclipta prostrata</i>	YERBA-DE-TAGO
<i>Elatine americana</i>	AMERICAN WATERWORT
<i>Eleocharis elliptica</i> var. <i>pseudoptera</i>	SLENDER SPIKERUSH
<i>Eleocharis engelmannii</i>	ENGELMANN'S SPIKERUSH
<i>Eleocharis fallax</i>	CREEPING SPIKERUSH
<i>Eleocharis obtusa</i> var. <i>ovata</i>	BLUNT SPIKERUSH
<i>Eleocharis quadrangulata</i>	ANGLED SPIKERUSH
<i>Eleocharis tricostata</i>	THREE-RIBBED SPIKERUSH
<i>Empetrum eamesii</i> ssp. <i>atropurpureum</i>	PURPLE CROWBERRY
<i>Epilobium ciliatum</i> ssp. <i>glandulosum</i>	WILLOW-HERB
<i>Epilobium hornemannii</i>	ALPINE WILLOW-HERB
<i>Equisetum laevigatum</i>	SMOOTH SCOURING RUSH
<i>Erechtites hieracifolia</i> var. <i>megalocarpa</i>	FIREWEED
<i>Erigenia bulbosa</i>	HARBINGER-OF-SPRING
<i>Erigeron hyssopifolius</i>	DAISY FLEABANE
<i>Eriophorum angustifolium</i> ssp. <i>scabriusculum</i>	NARROW-LEAF COTTONGRASS
<i>Euonymus americana</i>	AMERICAN STRAWBERRY-BUSH
<i>Eupatorium aromaticum</i>	SMALL WHITE SNAKEROOT
<i>Eupatorium leucolepis</i> var. <i>leucolepis</i>	WHITE BONESET
<i>Eupatorium rotundifolium</i> var. <i>ovatum</i>	ROUND-LEAF BONESET
<i>Eupatorium rotundifolium</i> var. <i>rotundifolium</i>	ROUND-LEAF BONESET
<i>Eupatorium serotinum</i>	LATE BONESET
<i>Euphorbia ipecacuanhae</i>	IPECAC SPURGE
<i>Festuca saximontana</i>	SHEEP FESCUE
<i>Galium concinnum</i>	SHINING BEDSTRAW
<i>Galium kamtschaticum</i>	NORTHERN WILD-LICORICE
<i>Gaylussacia dumosa</i> var. <i>bigeloviana</i>	DWARF HUCKLEBERRY
<i>Gentiana saponaria</i>	SOAPWORT GENTIAN
<i>Gentianopsis procera</i>	LESSER FRINGED GENTIAN
<i>Geocaulon lividum</i>	PURPLE COMANDRA
<i>Geum vernum</i>	SPRING AVENS
<i>Geum virginianum</i>	ROUGH AVENS
<i>Gnaphalium belleri</i> var. <i>micradenium</i>	CATFOOT
<i>Gnaphalium purpureum</i>	PURPLE EVERLASTING
<i>Gnaphalium sylvaticum</i>	WOODLAND CUDWEED
<i>Gymnocladus dioica</i>	KENTUCKY COFFEE TREE
<i>Hackelia deflexa</i> var. <i>americana</i>	NORTHERN STICKSEED
<i>Halenia deflexa</i>	SPURRED GENTIAN

<i>Potamogeton strictifolius</i>	Straight-leaf Pondweed
<i>Potentilla paradoxa</i>	Bushy Cinquefoil
<i>Prenanthes boottii</i>	Boott's Rattlesnake-root
<i>Prenanthes crepidinea</i>	Nodding Rattlesnake-root
<i>Prenanthes nana</i>	Dwarf Rattlesnake-root
<i>Prunus pumila</i> var. <i>pumila</i>	Low Sand-cherry
<i>Ptelea trifoliata</i>	Wafer-ash
<i>Pterospora andromedea</i>	Giant Pine-drops
<i>Pycnanthemum clinopodioides</i>	Mountain-mint
<i>Pycnanthemum torrei</i>	Torrey's Mountain-mint
<i>Pycnanthemum verticillatum</i> var. <i>pilosum</i>	Whorled Mountain-mint
<i>Pyrrola minor</i>	Mountain Pyrola
<i>Pyxidanthera barbulata</i>	pixies
<i>Quercus phellos</i>	Willow Oak
<i>Ranunculus cymbalaria</i>	Seaside Crowfoot
<i>Ranunculus hispida</i> var. <i>nitidus</i>	Swamp Buttercup
<i>Rhododendron lapponicum</i>	Lapland Rosebay
<i>Rhynchospora torreyana</i>	Torrey's Beakrush
<i>Rosa acicularis</i> ssp. <i>sayi</i>	Prickly Rose
<i>Rosa nitida</i>	Shining Rose
<i>Rubus cuneifolius</i>	Sand Blackberry
<i>Rudbeckia hirta</i> var. <i>hirta</i>	Black-eyed-Susan
<i>Rumex hastatulus</i>	Heart Sorrel
<i>Rumex maritimus</i> var. <i>fueginus</i>	Golden Dock
<i>Sabatia angularis</i>	Rose-pink
<i>Sabatia campanulata</i>	Slender Marsh-pink
<i>Sagina decumbens</i>	Small-flowered Pearlwort
<i>Sagittaria teres</i>	Quill-leaf Arrowhead
<i>Salix cordata</i>	Sand Dune Willow
<i>Salix herbacea</i>	Dwarf Willow
<i>Salvia lyrata</i>	Lyre-leaf Sage
<i>Saxifraga oppositifolia</i>	Purple Mountain-saxifrage
<i>Saxifraga paniculata</i>	White Mountain-saxifrage
<i>Schizaea pusilla</i>	Curlygrass
<i>Scirpus clintonii</i>	Clinton's Clubrush
<i>Scirpus georgianus</i>	Georgia Bulrush
<i>Scirpus heterochaetus</i>	Slender Bulrush
<i>Scirpus maritimus</i>	Seaside Bulrush
<i>Scirpus novae-angliae</i>	Saltmarsh Bulrush
<i>Scleria minor</i>	Slender Nutrush
<i>Scleria pauciflora</i> var. <i>caroliniana</i>	Fewflower Nutrush
<i>Scleria reticularis</i> var. <i>pubescens</i>	Reticulate Nutrush
<i>Scleria verticillata</i>	Low Nutrush
<i>Scutellaria incana</i>	Hoary Skullcap
<i>Scutellaria integrifolia</i>	Hyssop-Skullcap
<i>Sedum integrifolium</i> ssp. <i>leedyi</i>	Leedy's Roseroot
<i>Sedum rosea</i>	Roseroot

<i>Sedum telephoides</i>	LIVE-FOREVER
<i>Sesuvium maritimum</i>	SEA PURSLANE
<i>Sisyrinchium mucronatum</i>	MICHAUX'S BLUE-EYED-GRASS
<i>Smilax pseudo-china</i>	FALSE CHINA-ROOT
<i>Smilax pulverulenta</i>	JACOB'S-LADDER
<i>Solidago elliotii</i>	COASTAL GOLDENROD
<i>Solidago bootttonii</i>	HOUGHTON'S GOLDENROD
<i>Solidago rugosa</i> ssp. <i>aspera</i>	ROUGH GOLDENROD
<i>Solidago rugosa</i> var. <i>sphagnophila</i>	TALL HAIRY GOLDENROD
<i>Solidago sempervirens</i> var. <i>mexicana</i>	SEASIDE GOLDENROD
<i>Solidago simplex</i> var. <i>racemosa</i>	MOUNTAIN GOLDENROD
<i>Sphenopholis obtusata</i> var. <i>obtusata</i>	PRAIRIE WEDGEGRASS
<i>Sphenopholis pensylvanica</i>	SWAMP OATS
<i>Spiraea septentrionalis</i>	MOUNTAIN MEADOWSWEET
<i>Spiranthes vernalis</i>	SPRING LADIES'-TRESSES
<i>Sporobolus clandestinus</i>	ROUGH RUSH-GRASS
<i>Strophostyles umbellata</i>	PINK WILD BEAN
<i>Suaeda linearis</i>	NARROW-LEAF SEA-BLITE
<i>Suaeda rolandii</i>	ROLAND'S SEA-BLITE
<i>Subularia aquatica</i> var. <i>americana</i>	WATER AWLWORT
<i>Thalictrum venulosum</i>	VEINY MEADOW-RUE
<i>Tipularia discolor</i>	CRANEFLY ORCHID
<i>Tofteldia glutinosa</i>	STICKY FALSE ASPHODEL
<i>Trichomanes intricatum</i>	FILMY FERN
<i>Trichostema setaceum</i>	TINY BLUE-CURLS
<i>Trillium flexipes</i>	NODDING TRILLIUM
<i>Trillium sessile</i>	TOAD-SHADE
<i>Triphora trianthophora</i>	NODDING POGONIA
<i>Trisetum melicoides</i>	MELIC-OATS
<i>Utricularia inflata</i>	LARGE FLOATING BLADDERWORT
<i>Uvularia puberula</i> var. <i>nitida</i>	MOUNTAIN BELLWORT
<i>Vaccinium cespitosum</i>	DWARF BLUEBERRY
<i>Valeriana uliginosa</i>	MARSH VALERIAN
<i>Valerianella chenopodiifolia</i>	GOOSEFOOT CORN-SALAD
<i>Valerianella umbilicata</i>	CORN-SALAD
<i>Vernonia gigantea</i>	TALL IRONWEED
<i>Viburnum nudum</i> var. <i>nudum</i>	POSSUM-HAW
<i>Viola brittoniana</i> var. <i>brittoniana</i>	COASTAL VIOLET
<i>Viola hirsutula</i>	SOUTHERN WOOD VIOLET
<i>Viola nephrophylla</i>	NORTHERN BOG VIOLET
<i>Viola novae-angliae</i>	NEW ENGLAND VIOLET
<i>Vitis vulpina</i>	WINTER GRAPE
<i>Vittaria appalachiana</i>	APPALACHIAN VITTARIA
<i>Woodsia alpina</i>	ALPINE WOODSIA
<i>Woodsia glabella</i>	SMOOTH WOODSIA

Appendix I: NYS DEC Protected Plant List

(c) The following are **threatened** native plants that are likely to become endangered within the foreseeable future throughout all or a significant portion of their ranges in the state. Listed plants are those with six to fewer than 20 extant sites, or 1,000 to fewer than 3,000 individuals, or restricted to not less than four or more than seven U.S.G.S. 7 1/2 minute series maps, or species listed as threatened by the United State Department of Interior in the Code of Federal Regulations.

Species	Common Name
<i>Aconitum noveboracense</i>	NORTHERN MONK'S-HOOD
<i>Agalinis paupercula</i> var. <i>borealis</i>	NORTHERN GERARDIA
<i>Agastache nepetoides</i>	YELLOW GIANT-HYSSOP
<i>Agrimonia rostellata</i>	WOODLAND AGRIMONY
<i>Agrostis mertensii</i>	NORTHERN BENTGRASS
<i>Aletris farinosa</i>	STAR GRASS
<i>Allium cernuum</i>	WILD ONION
<i>Arabis missouriensis</i>	GREEN ROCK-CRESS
<i>Arethusa bulbosa</i>	SWAMP PINK
<i>Asclepias viridiflora</i>	GREEN MILKWEED
<i>Asimina triloba</i>	PAWPAW
<i>Asplenium montanum</i>	MOUNTAIN SPLEENWORT
<i>Asplenium scolopendrium</i> var. <i>americanum</i>	HART'S-TONGUE FERN
<i>Aster borealis</i>	RUSH ASTER
<i>Aster pilosus</i> var. <i>pringlei</i>	HEATH ASTER
<i>Aster solidagineus</i>	FLAX-LEAF WHITETOP
<i>Aster spectabilis</i>	SHOWY ASTER
<i>Aster subulatus</i>	SALT MARSH ASTER
<i>Betula pumila</i>	SWAMP BIRCH
<i>Bidens laevis</i>	SMOOTH BUR-MARIGOLD
<i>Calamagrostis stricta</i> ssp. <i>inexpansa</i>	NORTHERN REEDGRASS
<i>Callitrichia terrestris</i>	TERRESTRIAL STARWORT
<i>Cardamine longii</i>	LONG'S BITTERCRESS
<i>Carex abscondita</i>	THICKET SEDGE
<i>Carex backii</i>	ROCKY MOUNTAIN SEDGE
<i>Carex bicknellii</i>	BICKNELL'S SEDGE
<i>Carex bigelowii</i>	BIGELOW'S SEDGE
<i>Carex buxbaumii</i>	BROWN BOG SEDGE
<i>Carex chordorrhiza</i>	CREEPING SEDGE
<i>Carex cratcae</i>	CRAWE'S SEDGE
<i>Carex cumulata</i>	CLUSTERED SEDGE
<i>Carex davisii</i>	DAVIS' SEDGE
<i>Carex formosa</i>	HANDSOME SEDGE
<i>Carex hitchcockiana</i>	HITCHCOCK'S SEDGE
<i>Carex hormathodes</i>	MARSH STRAW SEDGE
<i>Carex houghtoniana</i>	HOUGHTON'S SEDGE
<i>Carex jamesii</i>	NEBRASKA SEDGE
<i>Carex merritt-fernaldii</i>	FERNALD'S SEDGE
<i>Carex mitchelliana</i>	MITCHELL'S SEDGE
<i>Carex molesta</i>	TROUBLE SOME SEDGE

Appendix I: NYS DEC Protected Plant List

<i>Carex sartwellii</i>	SARTWELL'S SEDGE
<i>Carex schweinitzii</i>	SCHWEINITZ' SEDGE
<i>Carex seorsa</i>	WEAK STELLATE SEDGE
<i>Carex typhina</i>	CAT-TAIL SEDGE
<i>Carex willdenowii</i>	WILLDENOW'S SEDGE
<i>Carya laciniosa</i>	BIG SHELLBARK HICKORY
<i>Cenchrus tribuloides</i>	DUNE SANDSPUR
<i>Ceratophyllum echinatum</i>	PRICKLY HORNWORT
<i>Chamaelirium luteum</i>	BLAZING-STAR
<i>Chenopodium rubrum</i>	RED PIGWEED
<i>Corydalis aurea</i>	GOLDEN CORYDALIS
<i>Cyperus lupulinus</i> ssp. <i>lupulinus</i>	HOP SEDGE
<i>Cypripedium arietinum</i>	RAM'S-HEAD LADYSLIPPER
<i>Desmodium ciliare</i>	LITTLE-LEAF TICK-TREFOIL
<i>Diapensia lapponica</i>	DIAPENSIA
<i>Digitaria filiformis</i>	SLENDER CRABGRASS
<i>Diospyros virginiana</i>	PERSIMMON
<i>Draba arabisans</i>	ROCK-CRESS
<i>Draba reptans</i>	CAROLINA WHITLOW-GRASS
<i>Eleocharis equisetoides</i>	KNOTTED SPIKERUSH
<i>Eleocharis halophila</i>	SALT-MARSH SPIKERUSH
<i>Eleocharis tuberculosa</i>	LONG-TUBERCLED SPIKERUSH
<i>Equisetum pratense</i>	MEADOW HORSETAIL
<i>Equisetum palustre</i>	MARSH HORSETAIL
<i>Eupatorium album</i> var. <i>subvenosum</i>	WHITE BONESET
<i>Eupatorium hyssopifolium</i> var. <i>laciniatum</i>	FRINGED BONESET
<i>Fimbristylis castanea</i>	MARSH FIMBRY
<i>Frasera caroliniensis</i>	GREEN GENTIAN
<i>Geranium carolinianum</i> var. <i>sphaerospermum</i>	CAROLINA CRANESBILL
<i>Geum triflorum</i>	PRairie-SMOKE
<i>Hedeoma hispidum</i>	MOCK-PENNYROYAL
<i>Helianthemum dumosum</i>	BUSHY ROCKROSE
<i>Helianthus angustifolius</i>	SWAMP SUNFLOWER
<i>Hottonia inflata</i>	FEATHERFOIL
<i>Huperzia appalachiana</i>	APPALACHIAN FIRMOSS
<i>Hydrastis canadensis</i>	GOLDEN-SEAL
<i>Hypericum prolificum</i>	SHRUBBY ST. JOHN'S WORT
<i>Iris prismatica</i>	SLENDER BLUE FLAG
<i>Jeffersonia diphylla</i>	TWIN-LEAF
<i>Juncus trifidus</i>	ARCTIC RUSH
<i>Lechea tenuifolia</i>	SLENDER PINWEED
<i>Lespedeza stuevei</i>	VELVETY LESPEDEZA
<i>Liatris borealis</i>	NORTHERN BLAZING-STAR
<i>Lilaeopsis chinensis</i>	LILAEOPSIS
<i>Linum intercursum</i>	SANDPLAIN WILD FLAX
<i>Linum medium</i> var. <i>texanum</i>	SOUTHERN YELLOW FLAX
<i>Linum sulcatum</i>	YELLOW WILD FLAX

Appendix I: NYS DEC Protected Plant List

<i>Ludwigia sphaerocarpa</i>	GLOBE-FRUITED LUDWIGIA
<i>Megalodonta beckii</i> var. <i>beckii</i>	WATER-MARIGOLD
<i>Minuartia glabra</i>	APPALACHIAN SANDWORT
<i>Myriophyllum alterniflorum</i>	WATER MILFOIL
<i>Myriophyllum farwellii</i>	FARWELL'S WATER MILFOIL
<i>Oenothera parviflora</i> var. <i>oakesiana</i>	EVENING PRIMROSE
<i>Orontium aquaticum</i>	GOLDEN CLUB
<i>Oxalis violacea</i>	VIOLET WOOD-SORREL
<i>Panicum flexile</i>	WIRY PANIC GRASS
<i>Paspalum setaceum</i> var. <i>setaceum</i>	SLENDER BEADGRASS
<i>Pedicularis lanceolata</i>	SWAMP LOUSEWORT
<i>Pellaea glabella</i>	SMOOTH CLIFF BRAKE
<i>Pinguicula vulgaris</i>	BUTTERWORT
<i>Plantago cordata</i>	HEARTLEAF PLANTAIN
<i>Plantago maritima</i> ssp. <i>juncoides</i>	SEASIDE PLANTAIN
<i>Podostemum ceratophyllum</i>	RIVERWEED
<i>Polygonum careyi</i>	CAREY'S SMARTWEED
<i>Polygonum douglasii</i>	DOUGLAS' KNOTWEED
<i>Polygonum hydropiperoides</i> var. <i>opelousanum</i>	OPELOUSA SMARTWEED
<i>Populus heterophylla</i>	SWAMP COTTONWOOD
<i>Potamogeton alpinus</i>	NORTHERN PONDWEED
<i>Potamogeton confervoides</i>	ALGAE-LIKE PONDWEED
<i>Potamogeton hillii</i>	HILL'S PONDWEED
<i>Potamogeton pulcher</i>	SPOTTED PONDWEED
<i>Potentilla anserina</i> ssp. <i>egedi</i>	SILVERWEED
<i>Primula mistassinica</i>	BIRD'S-EYE PRIMROSE
<i>Proserpinaca pectinata</i>	COMB-LEAVED MERMAID-WEED
<i>Prunus pumila</i> var. <i>depressa</i>	DWARF SAND-CHERRY
<i>Pycnanthemum muticum</i>	BLUNT MOUNTAIN-MINT
<i>Pycnanthemum verticillatum</i> var. <i>verticillatum</i>	WHORLED MOUNTAIN-MINT
<i>Pyrola asarifolia</i>	PINK WINTERGREEN
<i>Ranunculus micranthus</i>	SMALL-FLOWERED CROWFOOT
<i>Rhododendron canadense</i>	RHODORA
<i>Rhynchospora inundata</i>	DROWNED HORNED BUSH
<i>Rhynchospora nitens</i>	SHORT-BEAKED BALD-RUSH
<i>Rorippa aquatica</i>	LAKE-CRESS
<i>Rotala ramosior</i>	TOOTH-CUP
<i>Sabatia stellaris</i>	SEA-PINK
<i>Sagittaria calycina</i> var. <i>spongiosa</i>	SPONGY ARROWHEAD
<i>Salicornia bigelovii</i>	DWARF GLASSWORT
<i>Salix pyrifolia</i>	BALSAM WILLOW
<i>Salix uva-ursi</i>	BEARBERRY WILLOW
<i>Saxifraga aizoides</i>	YELLOW MOUNTAIN-SAXIFRAGE
<i>Scirpus cespitosus</i>	DEER'S HAIR SEDGE
<i>Scleria triglomerata</i>	WHIP NUTRUSH
<i>Solidago multiradiata</i> var. <i>arctica</i>	ALPINE GOLDENROD
<i>Solidago ohioensis</i>	OHIO GOLDEROD

Appendix I: NYS DEC Protected Plant List

<i>Solidago rigida</i>	STIFF-LEAF GOLDENROD
<i>Solidago simplex</i> var. <i>randii</i>	MOUNTAIN GOLDENROD
<i>Sparganium nutans</i>	SMALL BUR-REED
<i>Sporobolus heterolepis</i>	NORTHERN DROPSEED
<i>Stachys hyssopifolia</i>	ROUGH HEDGE-NETTLE
<i>Stellaria longipes</i>	STARWORT
<i>Triglochin palustre</i>	MARSH ARROW-GRASS
<i>Tripsacum dactyloides</i>	NORTHERN GAMMA GRASS
<i>Ulmus thomasii</i>	CORK ELM
<i>Utricularia juncea</i>	RUSH BLADDERWORT
<i>Utricularia minor</i>	LESSER BLADDERWORT
<i>Utricularia radiata</i>	SMALL FLOATING BLADDERWORT
<i>Utricularia striata</i>	BLADDERWORT
<i>Vaccinium boreale</i>	HIGH-MOUNTAIN BLUEBERRY
<i>Verbesina alternifolia</i>	WINGSTEM
<i>Veronicastrum virginicum</i>	CULVER'S ROOT
<i>Viburnum dentatum</i> var. <i>venosum</i>	SOUTHERN ARROWWOOD
<i>Viburnum edule</i>	SQUASHBERRY
<i>Viola primulifolia</i>	PRIMROSE VIOLET
<i>Zigadenus elegans</i> ssp. <i>glaucus</i>	WHITE CAMAS

(d) The following are **rare** native plants that have from 20 to 35 extant sites or 3,000 to 5,000 individuals statewide.

Species	Common Name
<i>Agalinis fasciculata</i>	FASCICLED GERARDIA
<i>Bidens bidentoides</i>	ESTUARY BEGGAR-TICKS
<i>Carex lupuliformis</i>	FALSE HOP SEDGE
<i>Chamaecyparis thyoides</i>	ATLANTIC WHITE CEDAR
<i>Coreopsis rosea</i>	ROSE COREOPSIS
<i>Cyperus schweinitzii</i>	SCHWEINITZ'S FLATSEDGE
<i>Drosera filiformis</i>	DEWTHREAD
<i>Empetrum nigrum</i> ssp. <i>hermaphroditicum</i>	BLACK CROWBERRY
<i>Fuirena pumila</i>	DWARF UMBRELLA-SEDGE
<i>Isoetes lacustris</i>	LARGE-SPORED QUILLWORT
<i>Lechea racemulosa</i>	ILLINOIS PINWEED
<i>Lespedeza angustifolia</i>	BUSH CLOVER
<i>Lespedeza repens</i>	TRAILING LESPEDEZA
<i>Lespedeza violacea</i>	VIOLET LESPEDEZA
<i>Limosella australis</i>	MUDWORT
<i>Linum striatum</i>	STIFF YELLOW FLAX
<i>Lobelia nuttallii</i>	NUTTALL'S LOBELIA
<i>Mimulus alatus</i>	WINGED MONKEYFLOWER
<i>Minuartia caroliniana</i>	PINE-BARREN SANDWORT
<i>Pinus banksiana</i>	JACK PINE
<i>Polemonium vanbruntiae</i>	JACOB'S-LADDER

Appendix I: NYS DEC Protected Plant List

<i>Polygonum glaucum</i>	SEABEACH KNOTWEED
<i>Polygonum tenuie</i>	SLENDER KNOTWEED
<i>Rhynchospora scirpoides</i>	LONG-BEAKED BALD-RUSH
<i>Scheuchzeria palustris</i>	POD GRASS
<i>Trollius laxus</i> ssp. <i>laxus</i>	SPREADING GLOBEFLOWER
<i>Vaccinium uliginosum</i>	BOG BILBERRY

- (e) The following are **exploitably vulnerable** native plants likely to become threatened in the near future throughout all or a significant portion of their ranges within the state if causal factors continue unchecked.

<i>Species</i>	Common Name
<i>Actaea pachypoda</i>	WHITE BANEBERRY
<i>Actaea spicata</i> ssp. <i>rubra</i>	RED BANEBERRY
<i>Arisaema dracontium</i>	GREEN DRAGON
<i>Asclepias tuberosa</i>	BUTTERFLY-WEED
<i>Campanula rotundifolia</i>	HAREBELL
<i>Celastrus scandens</i>	AMERICAN BITTERSWEET
<i>Chelone glabra</i>	TURTLE-HEADS
<i>Chimaphila maculata</i>	SPOTTED WINTERGREEN
<i>Chimaphila umbellata</i>	PIPSISSEWA
<i>Clintonia umbellulata</i>	SPECKLED WOODLILY
<i>Conopholis americana</i>	SQUAWROOT
<i>Cornus florida</i>	FLOWERING DOGWOOD
<i>Drosera intermedia</i>	SUNDEW
<i>Drosera rotundifolia</i>	SUNDEW
<i>Epigaea repens</i>	TRAILING ARBUTUS
<i>Euonymus obovata</i>	RUNNING STRAWBERRY-BUSH
<i>Gentiana andrewsii</i>	CLOSED GENTIAN
<i>Gentiana clausa</i>	BLIND GENTIAN
<i>Gentiana linearis</i>	CLOSED GENTIAN
<i>Gentianella quinquefolia</i>	STIFF GENTIAN
<i>Gentianopsis crinita</i>	FRINGED GENTIAN
<i>Ilex glabra</i>	GALLBERRY
<i>Ilex laevigata</i>	SMOOTH WINTERBERRY
<i>Ilex montana</i>	MOUNTAIN WINTERBERRY
<i>Ilex opaca</i>	AMERICAN HOLLY
<i>Ilex verticillata</i>	BLACK ALDER
<i>Juglans cinerea</i>	BUTTERNUT
<i>Kalmia angustifolia</i>	SHEEP LAUREL
<i>Kalmia latifolia</i>	MOUNTAIN LAUREL
<i>Kalmia polifolia</i>	BOG LAUREL
<i>Lilium canadense</i>	CANADA LILY
<i>Lilium philadelphicum</i>	WOODLILY
<i>Lilium superbum</i>	TURK'S-CAP LILY
<i>Limonium carolinianum</i>	SEA LAVENDER
<i>Lobelia cardinalis</i>	CARDINAL-FLOWER

Appendix I: NYS DEC Protected Plant List

<i>Lobelia dortmanna</i>	WATER LOBELIA
<i>Lobelia siphilitica</i>	GREAT LOBELIA
<i>Mertensia virginica</i>	VIRGINIA BLUEBELL
<i>Monarda didyma</i>	BEE-BALM
<i>Myrica pensylvanica</i>	BAYBERRY
<i>Opuntia humifusa</i>	EASTERN PRICKLY PEAR
<i>Panax quinquefolius</i>	GINSENG
<i>Parnassia glauca</i>	GRASS-OF-PARNASSUS
<i>Rhododendron arborescens</i>	SMOOTH AZALEA
<i>Rhododendron maximum</i>	GREAT LAUREL
<i>Rhododendron periclymenoides</i>	PINKSTER
<i>Rhododendron prinophyllum</i>	EARLY AZALEA
<i>Rhododendron viscosum</i>	SWAMP AZALEA
<i>Sanguinaria canadensis</i>	BLOODROOT
<i>Sarracenia purpurea</i>	PITCHER-PLANT
<i>Silene caroliniana</i>	WILD PINK
<i>Trillium cernuum</i>	NODDING TRILLIUM
<i>Trillium erectum</i>	PURPLE TRILLIUM
<i>Trillium grandiflorum</i>	WHITE TRILLIUM
<i>Trillium undulatum</i>	PAINTED TRILLIUM
<i>Viola pedata</i>	BIRD'S-FOOT VIOLET

All native clubmosses, including:

<i>Huperzia lucidula</i>	SHINING FIRMOSS
<i>Lycopodiella alopecuroides</i>	FOXTAIL CLUBMOSS
<i>Lycopodiella appressa</i>	Swamp Clubmoss
<i>Lycopodiella inundata</i>	Northern Bog Clubmoss
<i>Lycopodium annotinum</i>	BRISTLY CLUBMOSS
<i>Lycopodium clavatum</i>	RUNNING CEDAR
<i>Lycopodium dendroideum</i>	NORTHERN TREE CLUBMOSS
<i>Lycopodium digitatum</i>	RUNNING-PINE
<i>Lycopodium obscurum</i>	GROUND PINE
<i>Lycopodium tristachyum</i>	GROUND CEDAR

All native ferns, (except Bracken, *Pteridium aquilinum*, Hay-scented, *Dennstaedtia punctilobula*, and Sensitive fern, *Onoclea sensibilis*), including:

<i>Adiantum pedatum</i>	MAIDENHAIR FERN
<i>Asplenium platyneuron</i>	EBONY SPLEENWORT
<i>Asplenium rhizophyllum</i>	WALKING FERN
<i>Asplenium ruta-muraria</i>	WALL-RUE SPLEENWORT
<i>Asplenium trichomanes</i>	MAIDENHAIR SPLEENWORT
<i>Athyrium filix-femina</i>	LADY FERN
<i>Azolla caroliniana</i>	MOSQUITO-FERN
<i>Botrychium dissectum</i>	CUT-LEAF GRAPE FERN
<i>Botrychium lanceolatum</i>	LANCE-LEAF GRAPE FERN

Appendix I: NYS DEC Protected Plant List

<i>Botrychium matricariifolium</i>	MATRICARY GRAPE FERN
<i>Botrychium multifidum</i>	LEATHERY GRAPE FERN
<i>Botrychium simplex</i>	LEAST MOONWORT
<i>Botrychium virginianum</i>	RATTLESNAKE FERN
<i>Cryptogramma stelleri</i>	SLENDER CLIFF BRAKE
<i>Cystopteris bulbifera</i>	BULBLET FERN
<i>Cystopteris fragilis</i>	COMMON FRAGILE FERN
<i>Cystopteris tenuis</i>	FRAGILE FERN
<i>Deparia acrostichoides</i>	SILVERY SPLEENWORT
<i>Diplazium pycnocarpon</i>	GLADE FERN
<i>Dryopteris campyloptera</i>	MOUNTAIN WOOD FERN
<i>Dryopteris carthusiana</i>	SPINULOSE WOOD FERN
<i>Dryopteris clintoniana</i>	CLINTON'S SHIELD FERN
<i>Dryopteris cristata</i>	CRESTED WOOD FERN
<i>Dryopteris goldiana</i>	GIANT WOOD FERN
<i>Dryopteris intermedia</i>	COMMON WOOD FERN
<i>Dryopteris marginalis</i>	MARGINAL WOOD FERN
<i>Gymnocarpium dryopteris</i>	OAK FERN
<i>Matteuccia struthiopteris</i>	OSTRICH FERN
<i>Ophioglossum pusillum</i>	ADDER'S-TONGUE
<i>Osmunda cinnamomea</i>	CINNAMON FERN
<i>Osmunda claytoniana</i>	INTERRUPTED FERN
<i>Osmunda regalis</i>	ROYAL FERN
<i>Pellaea atropurpurea</i>	PURPLE CLIFF BRAKE
<i>Phegopteris connectilis</i>	NORTHERN BEECH FERN
<i>Phegopteris hexagonoptera</i>	BROAD BEECH FERN
<i>Polypodium virginianum</i>	ROCK POLYPODY
<i>Polystichum acrostichoides</i>	CHRISTMAS FERN
<i>Polystichum braunii</i>	BRAUN'S HOLLY FERN
<i>Salvinia minima</i>	WATER-FERN
<i>Thelypteris noveboracensis</i>	NEW YORK FERN
<i>Thelypteris palustris</i>	MARSH FERN
<i>Thelypteris simulata</i>	MASSACHUSETTS FERN
<i>Woodsia ilvensis</i>	RUSTY WOODSIA
<i>Woodsia obtusa</i>	BLUNT-LOBED WOODSIA
<i>Woodwardia areolata</i>	NETTED CHAIN FERN
<i>Woodwardia virginica</i>	VIRGINIA CHAIN FERN

All native orchids, including:

<i>Calopogon tuberosus</i>	GRASS PINK
<i>Coeloglossum viride</i>	LONG-BRACED ORCHID
<i>Corallorrhiza maculata</i>	SPOTTED CORALROOT
<i>Corallorrhiza odontorhiza</i>	AUTUMN CORALROOT
<i>Cypripedium acaule</i>	PINK LADYSLIPPER
<i>Cypripedium parviflorum</i> var. <i>makasin</i>	SMALL YELLOW LADYSLIPPER
<i>Cypripedium parviflorum</i> var. <i>pubescens</i>	YELLOW LADYSLIPPER

Appendix I: NYS DEC Protected Plant List

<i>Cypripedium reginae</i>	SHOWY LADYSLIPPER
<i>Galearis spectabilis</i>	SHOWY ORCHIS
<i>Goodyera pubescens</i>	DOWNTURNED RATTLESNAKE-PLANTAIN
<i>Goodyera repens</i>	DWARF RATTLESNAKE-PLANTAIN
<i>Goodyera tesselata</i>	RATTLESNAKE-PLANTAIN
<i>Isotria verticillata</i>	LARGE WHORLED POGONIA
<i>Liparis loeselii</i>	BOG TWAYBLADE
<i>Listera cordata</i>	HEARTLEAF TWAYBLADE
<i>Malaxis monophyllos</i>	WHITE ADDER'S-MOUTH
<i>Malaxis unifolia</i>	GREEN ADDER'S-MOUTH
<i>Platanthera aquilonis</i>	NORTHERN GREEN ORCHID
<i>Platanthera blephariglottis</i>	WHITE FRINGED ORCHID
<i>Platanthera clavellata</i>	GREEN WOODLAND ORCHID
<i>Platanthera dilatata</i>	BOG-CANDLE
<i>Platanthera flava</i>	TUBERCLED ORCHID
<i>Platanthera grandiflora</i>	LARGE PURPLE FRINGED ORCHID
<i>Platanthera huronensis</i>	TALL NORTHERN GREEN ORCHID
<i>Platanthera lacera</i>	RAGGED FRINGED ORCHID
<i>Platanthera obtusata</i>	BLUNT-LEAVED ORCHID
<i>Platanthera orbiculata</i>	LARGE ROUND-LEAVED ORCHID
<i>Platanthera psycodes</i>	SMALL PURPLE FRINGED ORCHID
<i>Pogonia ophioglossoides</i>	ROSE POGONIA
<i>Spiranthes casei</i>	LADY'S-TRESSES
<i>Spiranthes cernua</i>	NODDING LADY'S-TRESSES
<i>Spiranthes lacera</i>	SLENDER LADY'S-TRESSES
<i>Spiranthes lucida</i>	WIDE-LEAVED LADY'S-TRESSES
<i>Spiranthes ochroleuca</i>	CREAMY LADY'S-TRESSES
<i>Spiranthes romanzoffiana</i>	HOODED LADY'S-TRESSES
<i>Spiranthes tuberosa</i>	LITTLE LADY'S-TRESSES

(f) It is a violation for any person, anywhere in the state, to pick, pluck, sever, remove, damage by the application of herbicides or defoliants, or carry away, without the consent of the owner, any protected plant. Each protected plant so picked, plucked, severed, removed, damaged or carried away shall constitute a separate violation.

NATURAL HERITAGE REPORTING FORM**New York Natural Heritage Program****New York State Dept. of Environmental Conservation
625 Broadway, 5th Floor****Albany, NY 12233-4757** (518) 402-8935

We Need Your Help. If you have information on the location of a rare plant, rare animal or ecological community and would like to help us build the Natural Heritage inventory, please complete the form below. - Thank you!

INSTRUCTIONS:

1. Complete this form for **first hand field observations only**. Please mail fully completed form to the above address.
2. **DO NOT COMPLETE THIS FORM** if the source of your information is a report, letter, conversation or other document. Send us the documentation.
3. Rare birds: complete this form only for observations during the breeding season or at large concentration areas during migration or in winter.
4. Attach a copy of a map (USGS 1:24,000 topographic map preferred) and mark the location of the rare species or community & its boundary (if known).

Note, you may print copies of topo maps from the Internet at <http://www.topozone.com>. Please use 1:24,000 or 1:25,000 scale only.

SOURCE OF YOUR INFORMATION: (check one of the following)

- Firsthand field observation Does the identification need to be confirmed? yes no
 Other: Please do not complete this form; send us a copy of the documentation instead. If source is a conversation with someone, send us a note.

FORM COMPLETED BY:

Date:

phone:

IDENTIFICATION

Complete **only one form per rare plant, animal or ecological community per site**. If you need a list of rare species/communities we are tracking, contact our office.

Name of the rare plant, animal or ecological community:

Last Date Observed:

First Date Observed: month:

Observer (name, phone# and address if known) :

LOCATION:

Site name (local or place name):

Directions (describe in detail the precise location of the species or community; include nearby landmarks, street names and mileages):

County:

Town:

Name of USGS 7.5' topo (if known):

OBSERVATION DATA:

Animals: Indicate the number of adults, juveniles, nests, etc.

Plants: Indicate 1) the number of flowering plants and/or sterile stems and 2) the number of separate plant groups

Ecological communities: Indicate 1) the percent cover of tree, shrub and herb layers and 2) the percent cover of dominant plants in each layer.

SIZE: Please indicate the estimated size of the area occupied by the animal, plant or community): _____ acres or _____ sq. meters

If the area occupied is long, narrow and less than 12.5 meters wide, please indicate: Length: _____ (meters) Width: _____ (meters)

HABITAT DESCRIPTION: Write a word picture of the habitat where the species or community is found. Include ecological communities, dominants, associated species, substrates, soils, aspect, slope, hydrology, etc.

LANDOWNER (name, addresses and phone numbers if available):

LANDSCAPE (describe the current landscape surrounding the plant, animal or community (i.e., farmland, residential, pristine forest, etc.)

CURRENT AND POTENTIAL THREATS:

MANAGEMENT NEEDS:

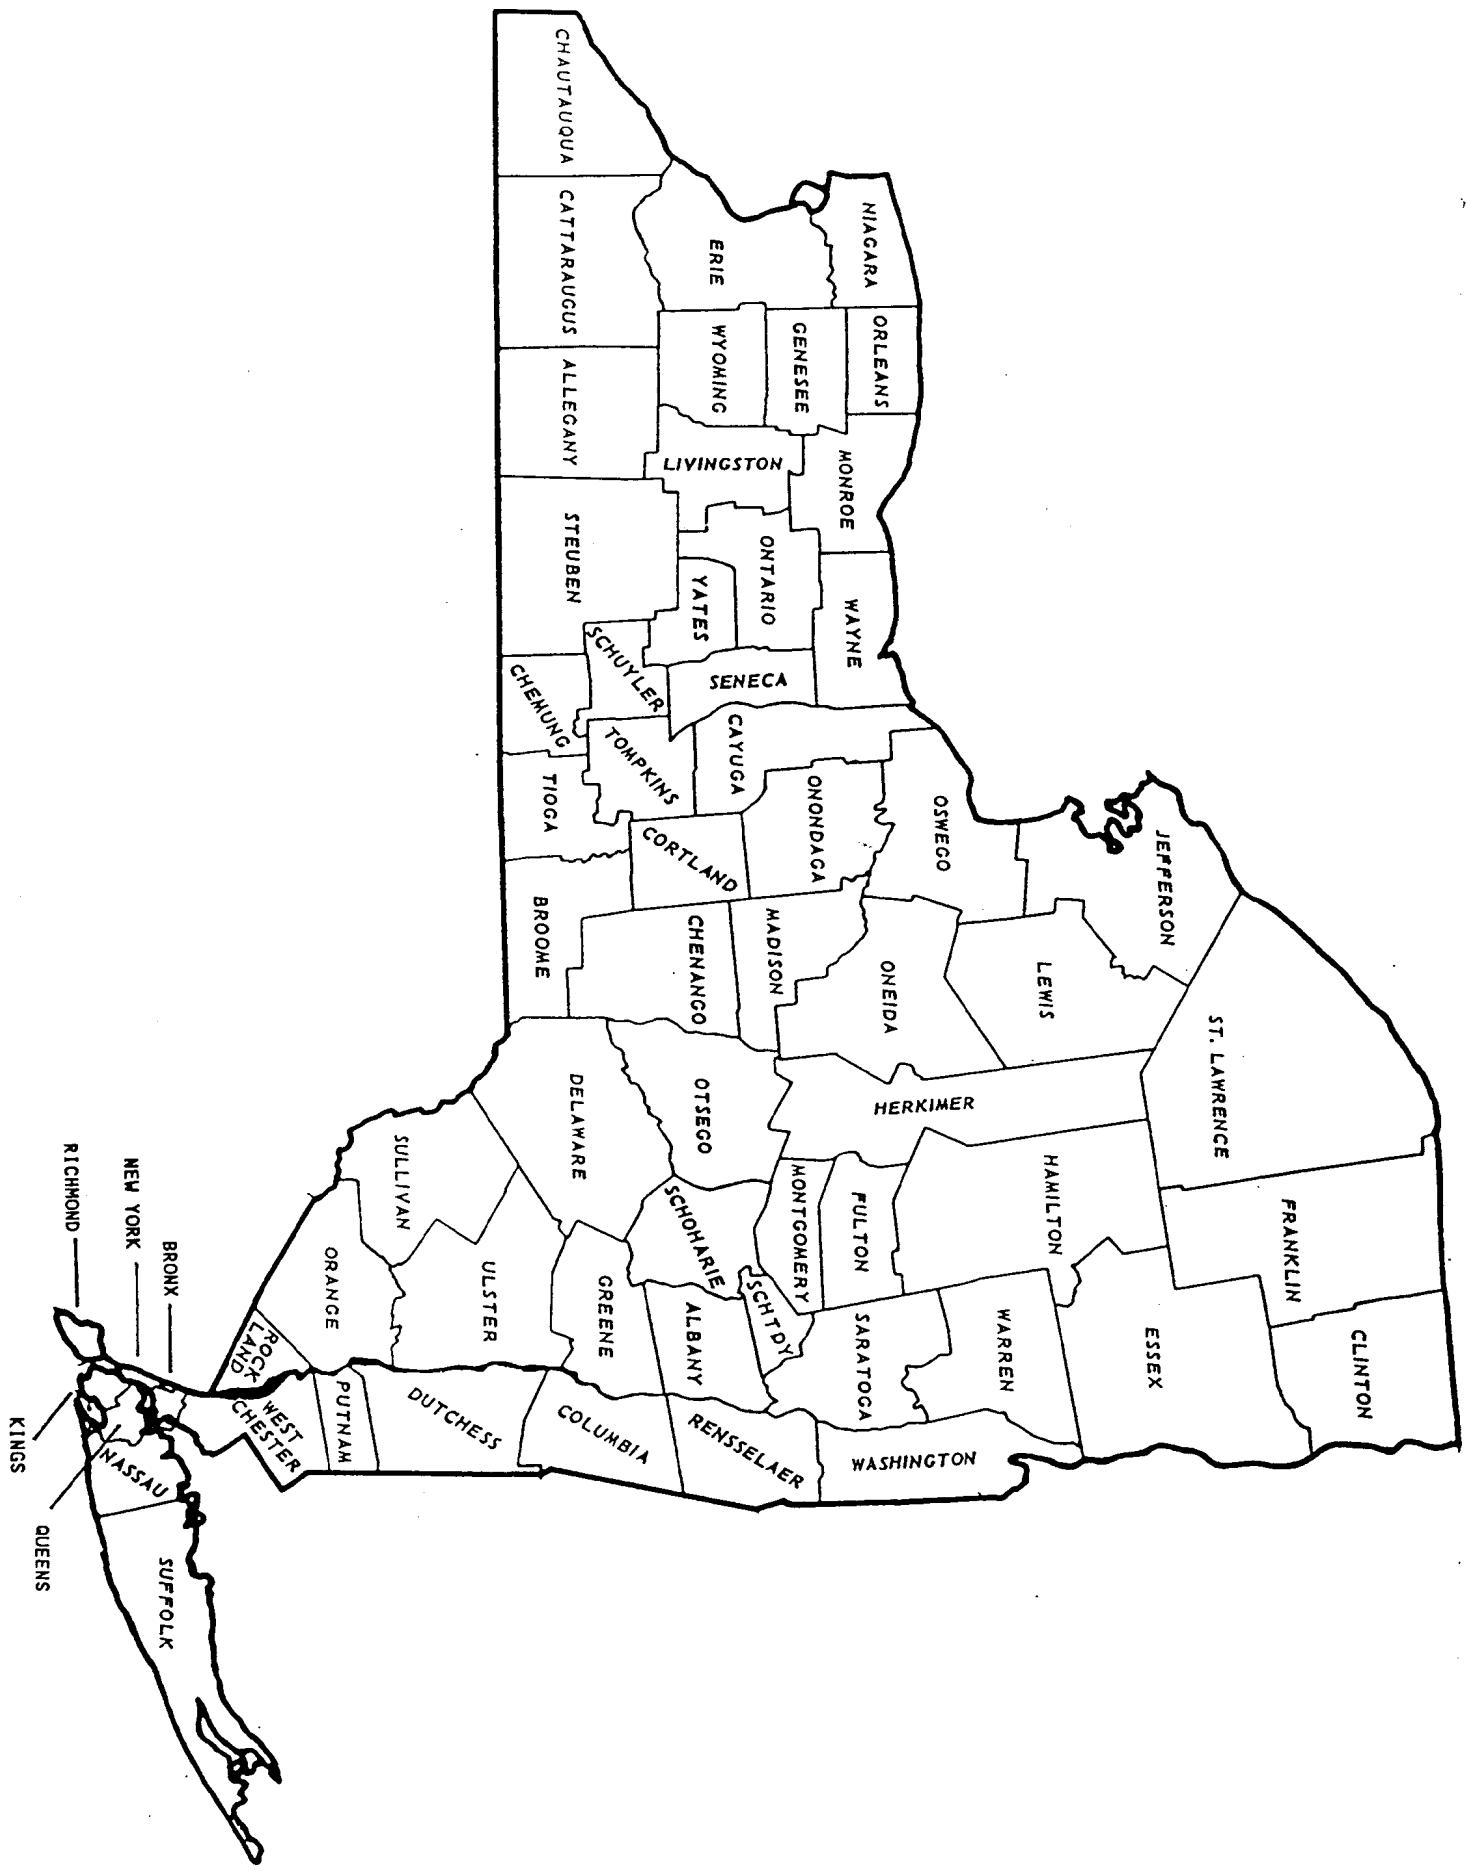

SPECIMEN: Was a specimen taken? yes no. If yes, indicate the collection # and repository: _____

PHOTOGRAPH: Was a photo taken? yes no. If yes: slide print digital. If possible, please send us a copy of the photo.

Is a copy included with the form? yes no

COMMENTS:

HABITAT MAP: Please draw a sketch of the site and habitat showing the location of the species or ecological community which are not apparent on the topo map. Show nearby landmarks, the route taken, streets, landmarks, disturbances, scale, and north. Use an additional sheet of paper if needed.

The New York Natural Heritage Program

The NY Natural Heritage Program is a partnership between the NYS Department of Environmental Conservation (NYS DEC) and The Nature Conservancy. Our mission is to enable and enhance conservation of rare animals, rare plants, and significant ecosystems. We accomplish this mission by combining thorough field inventories, scientific analyses, expert interpretation, and the most comprehensive database on New York's distinctive biodiversity to deliver the highest quality information for natural resource planning, protection, and management.

NY Natural Heritage was established in 1985 and is a contract unit housed within NYS DEC's Division of Fish, Wildlife, & Marine Resources. The program is staffed by more than 20 scientists and assistants with expertise in ecology, zoology, botany, information management, and geographic information systems.

NY Natural Heritage maintains New York's most comprehensive database on the status and location of rare species and natural communities. We presently monitor the status of 165 natural community types, 755 rare plant species, and 417 rare animal species across New York, keeping track of more than 10,000 locations where these species and communities are found. The database also includes detailed information on the relative rareness of each species and community, the quality of their occurrences, and descriptions of sites. The information is used by public agencies, the environmental conservation community, developers, and others to aid in land-use decisions. Our data are essential for prioritizing those species and communities in need of protection and for guiding land-use and land-management decisions where these species and communities exist.

In 1990, NY Natural Heritage published *Ecological Communities of New York State*, an all-inclusive classification of natural and human-influenced communities. From 40,000-acre beech-maple mesic forests to 40-acre beech maritime forests, sea-level salt marshes to alpine meadows, our classification quickly became the primary source for natural community classification in New York and a fundamental reference for natural community classifications in the northeastern United States and southeastern Canada. This classification, which has been continually updated as we gather new field data, has also been incorporated into the National Vegetation Classification that is being developed and refined by NatureServe, The Nature Conservancy, and Natural Heritage Programs throughout the United States (including New York).

NY Natural Heritage is an active participant in NatureServe – the international network of biodiversity data centers. There are currently Natural Heritage Programs in all 50 states and 21 Conservation Data Centers (the international equivalent of Natural Heritage Programs) in Canada, Latin America, and South America. These programs work with NatureServe to develop biodiversity data, maintain compatible standards for data management, and provide information about rare species and natural communities that is consistent across many geographic scales – from $\frac{1}{4}$ acre wetland sites to the North American continent. In 1997 and 2003 NatureServe named NY Natural Heritage the most outstanding program in the Western Hemisphere.
