1st January 2024

Dear Orchid Friends and Customers,

It's just before Christmas and things are a little quieter than usual for a change. Potting is up to date in the nursery and plants are looking good after a warmer than usual October and early November. Hence time to complete this letter and hopefully get the new list up on the website by the promised 1st January!

There are a few left of the more common Phragmipedium divisions but all of the Paphiopedilum divisions are now sold. Throughout the list are one-off plants which are available, all from my own collection. Now that I have moved to the suburbs, I no longer have space to expand so I am eventually having to contract in order to purchase more plants. You are welcome to request a photo of any of these larger plants which I can send on What's App.

I am delighted with my choice of the The Courier Guy for my Door to Door deliveries. All is going smoothly and there have been no glitches so far. Apologies to any customers who were affected by my previous courier agents.

Our September orchid show was a great success and we had record sales especially on the Society plant table. The numbers through the door were lower than expected but we hope for more next year. The quality of the plants up for judging improves yearly!

I have also included some new Cymbidiums in this early 2024 list, most of them are blooming size.

My new complex Paphiopedilums are looking good and all rooted and ready for their new homes. All are blooming size for 2024.

I am still only open to the public on a Wednesday morning from 10am – 1pm, otherwise by appointment. Address is 34 Napier Str, Blanco, George. I have included another email address in the details above if needed - stellrsa@mweb.co.za - if needed.

Happy growing!! And all the best for a Healthy and Prosperous New Year.

DENDROBIUM SPECIOSUM
var. 'Woodcroft'

This photo is just to show you what can be done with a *Dendrobium speciosum*.

This plant was imported from Australia 30 years ago and photographed in my shaded area in September 2014 with Robert looking on. Second photo taken in 2016 before our spring show – transported in a builder's lorry!

It received an Award of Cultural Merit at the Orchid Soc. of the Southern Cape Spring Show.

Babies are growing! Available next spring...
