### News

- ★ SABG Constitution adopted on 15th July 2021
- ★ The Bulb & Seed Exchange has finished but there are surplus and other items for distribution
- ★ Sale of books and pamphlets from Terry Smale
- ★ 2021 Ephemeral Exchange details announced

### Dates for your diary

- ★ 24 September: Deadline for surplus requests
- ★ 3 October: SABG meeting **CANCELLED**
- ★ 16 October: NAAS visit to Exbury *Nerine* display
- ★ 13 November: Deadline for Jon Evans to receive lists of available items for the Ephemeral Exchange:
- ★ 20 November: Deadline for Jon Evans to receive seeds for the Ephemeral Exchange

### From the Editor

Sadly the SABG Committee has decided to cancel the meeting scheduled for 3rd October, as described later in this Newsletter. While only a relatively small proportion of our 230 members attend the regular meetings, not least for reasons of distance, this is nevertheless disappointing. I hope this is not too discouraging and that you are able to maintain or enhance your interest in our plants in other ways.

Two of these are of course growing and reading, and you can satisfy both with this Newsletter: the details for the November Ephemeral Seed Exchange are announced by Jon Evans, and there is a list of books and technical booklets from Terry Smale, for which we are inviting offers, with proceeds to a South African charity supported by Jennifer Smale. Details on a later page.

Talking of growing, I have added a page on Cultivation to the SABG web site<sup>1</sup>. At the moment this is just a pointer to articles and notes which have appeared in previous Newsletters. I may well have missed some, so if you find any more, or other sources of cultural information online, please let me know and I will add them to the list.

This edition of the Newsletter seems to consist almost entirely of notices and lists! As a compensation for this and for the very grey August we have had in the UK, I have included some photos from Uli Urban in sunny Portugal: see the Bulbils section below.

### *In the next Newsletter*

I plan to produce the next Newsletter (no. 46) for distribution in winter 2021/2022. I have some items left over that would not fit into this one, including illustrated reports on Jon Evans' talks on South African bulbs at AGS shows. To whet your appetite, here is one of his photos. Incidentally, he said he would very much like to acquire this plant if anyone grows it.

*Oxalis hirta* (purple form) exhibited by Michael Myers

A different variety of this species, also photographed by Jon Evans, is on page 7 in Newsletter 40 (August 2019).

Do let me know of anything else you would like to be included in the next Newsletter.

## Notices and Requests

### *Bulb & Seed Exchange surplus and other items*

Later in this newsletter there is a list of surplus bulb and seed donations from this year's main summer exchange, plus a few additional items. Requests should be sent to

<sup>1</sup> <https://sabg.tk/help:cult:start>

Jon Evans as soon as possible, by **24th September**.

**(The full instructions and the list are included later in the Newsletter.)**

### *SABG Ephemeral Seed Exchange, November 2021*

Once again, members have expressed interest in running an exchange for Ephemeral (short-lived) seed. We are hoping to run the exchange on the same timing as last season, so material is sent out at the end of November, and can be planted and started into growth in a timely fashion. Last year, we had some problems with the seeds having started into growth and desiccating. If that happens again this year, we will have to bring the deadline for donations forwards in future, and miss some late-ripening seed.

This exchange is intended primarily for fleshy Amaryllid seeds (e.g. *Amaryllis*, *Brunsvigia*, *Crinum*, *Hessea*, *Nerine*, *Strumaria*), or any other bulbous seeds which need to be sown fresh; however, I am very happy to receive any other late-ripening bulbous seeds, or indeed bulbs of summer-growing species which have now gone dormant.

The normal problem with this exchange is that the demand vastly outstrips supply, particularly for *Strumaria* and *Hessea* seed, but the growers are still keen to distribute these species in cultivation as far as possible. So please donate anything you can.

Please note that although we call it an exchange, if you don't yourself have material to offer, you will still be able to request seeds or bulbs from the list in exchange for a suitable donation to cover at least the cost of postage and packing.

### Donating seeds

1. Please contact me by **13th November** with a list of what you are sending (my email is [jonevans46.uw@btinternet.com](mailto:jonevans46.uw@btinternet.com)). The list of your donations should if possible contain the following information. Please send the list by email if possible.

- Genus
- Species (including subspecies / cultivar name where relevant)
- Source (when the item is derived from wild collected material it is useful to know a location for the collection)
- Notes (any other information about the item you feel is useful)
- Seed or Bulb
- South African or 'Other'
- Approximate quantity

2. Send the seed to me by **20th November** at the following address: 46 Upper Way, Farnham, Surrey GU9 8RF

I will send out a list of the items received or promised on or around 14th November, with a week or 10 days for people to make requests. I hope you find this exercise valuable and perhaps obtain some new plants. Of course, its success depends on the generous efforts of the donors, so please check whether you have some spares you can donate.

Jon Evans

### Terry Smale's books for sale

Jon Evans has acquired some of Terry Smale's books, pamphlets and journal articles on South African bulbs, **listed later in this Newsletter**. Many of these are botanical revisions of individual genera, with few pictures – quality fair to good. A few items are newer and more obviously in good condition – Cowling & Richardson "Fynbos", Craib (beautiful botanical art), Douth, Duncan etc. on Amaryllidaceae, Duncan "The Genus *Lachenalia*", Goldblatt & Manning "*Gladiolus* of Southern Africa", Vlok "Klein Karoo."

Offers are invited. A "best price" is listed, based on Internet searches (AddALL<sup>2</sup>, Abe Books and Silverhill Books & Seeds) for other copies for sale, and in the last column a generously discounted "guide price" for members. Bids of around or above the guide price should be sent, preferably by email, to Alina Hughes (listed in the Committee section of the Newsletter). After 26th September she will confirm the receipt of your offer and also let you know if a higher bid is received, so you have the option of increasing your offer. A book will be considered sold approximately two weeks after the last bid received for that book. We assume that most of these books will have to be posted to you, so there will be an additional charge for this, which will be arranged when a successful bid is confirmed. Most will make a small parcel for £3.85. In some cases there may be other ways to get the books to you, or you might agree to wait to collect them at the next SABG meeting in Spring 2022 (which is not guaranteed!) Overseas members are welcome to bid, but the cost of postage ("shipping") will be higher.

Proceeds from this sale will go to a charity supported by Terry and Jennifer Smale, which provides facilities including schools for under-privileged children in South African townships. So this is a good chance to stock up your library in anticipation of some serious reading during the winter months, while at the same time doing your bit to help South Africans.

2 <https://www.addall.com>

### Annual financial statement

The latest SABG statement of income and expenditure is **appended at the end of this Newsletter**. The end of our financial year was changed from the end of September to the end of December, to avoid spreading one year's Bulb & Seed Exchange moneys over two annual statements. So for this statement only, the "year" actually lasted for 15 months.

### Rod & Rachel Saunders' *Gladiolus* book

Members will remember the tragic and untimely deaths of the South African *Gladiolus* experts Rod and Rachel Saunders, and that the SABG, among other organisations and individuals, made a donation to support the final completion and publication of their magnum opus on *Gladiolus*. I am delighted to report that the book "*Saunders' Field Guide to Gladioli of South Africa*" has recently been published by Struik Nature Field Guides in South Africa (sample pages are available<sup>3</sup>), and is expected in the UK on October 21st, according to NHBS<sup>4</sup> and Amazon<sup>5</sup> (£20.99), or other later dates elsewhere (e.g. January 8th at [amazon.com](https://www.amazon.com) in the USA, 1st January at [amazon.de](https://www.amazon.de), etc.)

3 <https://saundersgladiolusguide.com/>

4 <https://www.nhbs.com/saunders-field-guide-to-gladioli-of-south-africa-book>

5 <https://www.amazon.co.uk/Saunders-Gladioli-Africa-Struik-Nature/dp/1775847616/>

It is a 360-page paperback with distribution maps and over 1,000 photos of the 166 species, and appears to be in a similar format to the well known field guides on Wildflower, Fynbos, Succulents and Namaqualand from the same publisher. This choice of publisher, format and reasonable cost makes a welcome change from the rather expensive (but excellent) recent books on *Lachenalia* and Amaryllidaceae. One to add to my bookshelf, and perhaps yours too.

## SABG Constitution

The revised Constitution was included in Newsletter 44. No comments or other responses were received by the stipulated date of 15th July 2021, which means that the Constitution has now been adopted.

## Members' email addresses

A few members have more than one email address, and until now we have usually only used one of these addresses when sending out "bulk" emails to all members, such as emails which contain Newsletters such as this one. I am now able to include alternative email addresses so that, if you wish, emails can be sent to all your addresses if you have more than one. This can help in certain cases where receiving emails may be unpredictable or unreliable.

Where I am aware that you have two email addresses, I will now include both in our future mailings. If you have an alternative email address that you would like included, please let me know. Of course I would also like to receive notification of any other changes in email addresses, including new addresses where you have not had one before, to save the cost of posting paper copies of Newsletters to you, or requests to be removed from our membership list.

## When to sow *Albuca rupestris*

I've been given some seed of *Albuca rupestris* by a friend and I'm wondering when to sow them. As far as I can see, some *Albucas* are summer growing and some may be winter growers. If it is winter growing, now might be a good time to sow the seed. But if it is summer-growing, perhaps I should wait until the spring, or if it needs a winter chill it might be better sown now.

The Pacific Bulb Society doesn't list this species of *Albuca* but says for the whole genus<sup>6</sup>: "All species, however, are easily raised from seed, sown at about the same time adult plants come into active growth. Fresh seed often germinate within a week of sowing, often with 100% germination. The seed is short lived however

and probably needs to be started within six months for good germination."

To add to the confusion, there seems to be doubt as to where it comes from. One source mentions Underberg (as "Underburg") in the foothills of the Drakensberg in KwaZulu-Natal (summer growing?) and another quotes "the Cape area at Witteberg", but there is another Witteberg in the Eastern Cape near the Drakensbergs.

*Albucas* rarely seem to be mentioned in any cultivation notes. So if anyone has any knowledge of this attractive *Albuca*, especially when to sow it, please let me know!

## SABG meetings

### SABG Autumn 2021 meeting

The planned meeting in Winchester on Sunday 3rd October has been cancelled. The SABG Committee has been watching and discussing the situation with respect to Covid-19 infections in the UK, the uncertainty and possibility of increased levels in the coming months, the age and health profile of SABG members and the understandable reluctance of some to risk becoming infected. With regret, we have therefore taken the difficult decision to cancel the meeting planned for Sunday 3rd October 2021 in Winchester.

There were some practical difficulties which also mean that we have no plans to provide a Zoom meeting at this time. So we must look further forward, again, to our next meeting which we earnestly hope will be our Spring 2022 meeting in March or April.

### SABG Spring 2022 meeting

As mentioned above, details of the date and speaker for the Spring 2022 meeting will be circulated when they are decided.

*Lachenalia bulbifera*  
Ex-155a, coll. Bredasdorp

*Lachenalia bulbifera* collected at Bredasdorp [Uli Urban]

6 <https://www.pacificbulbsociety.org/pbswiki/index.php/Albuca>

## Bulbils

### *Light levels again*

Following the articles on light levels and growing plants outdoors in sunnier climates in Newsletters 43 and 44, I have included some more photos from Uli Urban, showing three of his *Lachenalias* growing in his garden in Portugal. Their compactness is impressive, for those used to more northerly latitudes.

*Lachenalia viridiflora* [Uli Urban]

*Lachenalia quadricolor* [Uli Urban]

## SABG Committee

### Chairman

Paul Cumbleton [cumbleton@yahoo.co.uk](mailto:cumbleton@yahoo.co.uk)

### Bulb & seed exchange

Jonathan Evans [jonevans46.uw@btinternet.com](mailto:jonevans46.uw@btinternet.com)

### Treasurer

Rodney Sims [rodney.sims@tiscali.co.uk](mailto:rodney.sims@tiscali.co.uk)

### Secretary & Membership

Alina Hughes [abmhughes@gmail.com](mailto:abmhughes@gmail.com)

### Newsletter & Web editor, Committee minutes

Richard White [sabg@rjwhite.tk](mailto:sabg@rjwhite.tk)

*Unless otherwise stated, material in this newsletter is by Richard White ([sabg@rjwhite.tk](mailto:sabg@rjwhite.tk)) and is Copyright © 2021, Southern African Bulb Group.*

## SABG Bulb & Seed Exchange 2021 Surplus List

Below are listed the surplus bulb and seed donations from this year's exchange, plus a few additional items. On receipt of the list, please send a list of requests to me, Jon Evans, 46 Upper Way, Farnham, Surrey, GU9 8RF, UK, or to [jonevans46.uw@btinternet.com](mailto:jonevans46.uw@btinternet.com). There is no limit to how many items you may request. Please try to get your requests back to me by 24th September. I will acknowledge all requests received, so if you don't receive a response, please try again, and copy in the secretary, Richard White ([richard@rjwhite.tk](mailto:richard@rjwhite.tk)) – your request may have vanished into the ether.

- Please order by using the numbers alongside the descriptions.
- Remember to add your **postal address**.
- Items will be allocated on a first come, first served basis.
- Sorry but this exchange is available only to UK members.

The Committee expects you to make a donation to cover the cost of postage and packing; but I suggest you wait until you receive your requests, as most things are now in limited quantities. £5.00 should be sufficient for most parcels.

You can send cheques drawn on a UK bank or UK postal orders payable to “SABG”, or make a bank transfer to ‘Southern African Bulb Group’, sort code 60-01-31, account number 59755709. In the latter case, specify your name as the reference so that we know who it’s from. Please don’t send postage stamps.

## PayPal

We cannot accept credit or debit card payments, but if you have a PayPal account you can pay that way.

To use PayPal, log into your own PayPal account using a Web browser or the PayPal mobile app, click on “Send” (or “Send & Request”, then “Send Money”) and enter the address pay@sabg.tk in the box. Alternatively, you can type paypal.me/paysabg into your Web browser’s location bar (not the Search box), but you will be asked to log into your PayPal account anyway if you haven’t done so already.

You will then see a page displaying the SABG Lachenalia logo and “Southern African Bulb Group”, followed by a box to enter the amount to pay, in £ (GBP). You can only enter digits for the pounds and pence, not a period “.”, so watch carefully where the decimal point appears as you type!

Please add a brief note describing what the payment is for, e.g. ‘Exchange 2021’. Include your name if your PayPal account uses a name which we might not recognise. Select or accept “**Paying for an item or service**”. If it says “Sending to a friend or to family”, click on “Change” and select “Paying for an item or service”. A “shipping address” may be shown, but I won’t see this, so make sure you sent me your postal address with your order. Click on “Send money now”.

## Donors

Donors’ initials are shown against each description, as follows:

AM	Anthony Murphy	HJ	Hans Joschko	LP	Les Percy
AT	Aiko Talens	HM	Helen Mount	MW	Mark Wessels
BH	Barry Hennessey	IN	Ian Nex	NH	Neil Hubbard
